INDEPENDENT AUDITOR'S REPORT

Board of Trustees
Teachers Retirement Association
St. Paul, Minnesota

Report on the Schedules

We have audited the accompanying schedule of employer and non-employer allocations of the Teachers Retirement Association as of and for the year ended June 30, 2017, and the related notes. We have also audited the total for all entities of the columns titled net pension liability, total deferred outflows of resources, total deferred inflows of resources, and total pension expense (specified column totals) included in the accompanying schedule of pension amounts by entity, current reporting period only, of the Teachers Retirement Association as of and for the year ended June 30, 2017, and the related notes.

Management's Responsibility for the Schedules

Management is responsible for the preparation and fair presentation of these schedules in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the schedules that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on the schedule of employer and non-employer allocations and the specified column totals included in the schedule of pension amounts by entity, current reporting period only, based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the schedule of employer and non-employer allocations and specified column totals included in the schedule of pension amounts by entity, current reporting period only, are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the schedule of employer and non-employer allocations and the specified column totals included in the schedule of pension amounts by entity, current reporting period only. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the schedule of employer and non-employer allocations and the specified column totals included in the schedule of pension amounts by entity, current reporting period only, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Association's preparation and fair presentation of the schedule of employer and non-employer allocations and the specified column totals included in the schedule of pension amounts by entity, current reporting period only, in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Association's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the schedule of employer and non-employer allocations and the specified column totals included in the schedule of pension amounts by entity, current reporting period only.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the schedules referred to above present fairly, in all material respects, the employer and non-employer allocations and the net pension liability, total deferred outflows of resources, total deferred inflows of resources, and total pension expense for the total of all participating entities of the Teachers Retirement Association as of and for the year ended June 30, 2017, in accordance with accounting principles generally accepted in the United States of America.

Restriction on Use

This report is intended solely for the information and use of management, the Board of Trustees, Teachers Retirement Association employer and non-employer entities, and their auditors, and is not intended to be, and should not be, used by anyone other than those specified parties.

Teachers Retirement Association
Notes to the Schedule of Employer and Non-Employer Allocations and
Schedule of Pension Amounts by Entity, Current Reporting Period Only
for the Fiscal Year Ended June 30, 2017

NOTE 1: PLAN DESCRIPTION

A. Organization

The Teachers Retirement Association (TRA) is an administrator of a multiple employer, cost-sharing defined benefit retirement fund. TRA administers a Basic Plan (without Social Security coverage) and a Coordinated Plan (with Social Security coverage) in accordance with Minnesota Statutes, Chapters 354 and 356. TRA is a separate statutory entity and is administered by a Board of Trustees. The Board consists of four active members, one retired member and three statutory officials.

B. Participating employers and direct aid contributions

Teachers employed in Minnesota's public elementary and secondary schools, charter schools, and certain educational institutions maintained by the state (except those teachers employed by the city of St. Paul and by the University of Minnesota system) are required to be TRA members. State university, community college, and technical college teachers first employed by the Minnesota State system may elect TRA coverage within one year of eligible employment. Alternatively, these teachers may elect coverage through the Defined Contribution Retirement Plan (DCR) administered by Minnesota State.

TRA serves 593 employer units. During the fiscal year TRA received direct aid contributions from the following sources: State of Minnesota \$31,087,410; City of Minneapolis \$2,250,000; and Minneapolis School District \$2,250,000. The direct aid is a result of the Minneapolis Teachers Retirement Fund Association merger into TRA in 2006 and the Duluth Teachers' Retirement Fund Association merger into TRA in 2015. These contributions meet the requirements for a special funding situation under GASB Statement 68, paragraph 15.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING AND REPORTING POLICIES

A. Basis of presentation and basis of accounting

1. Employers participating in TRA's cost-sharing multiple-employer defined benefit plan are required to report pension information in their financial statements for fiscal periods beginning after June 15, 2014, in accordance with Governmental Accounting Standards Board (GASB) Statement No. 68, *Accounting* and the *Financial Reporting for Pensions*. The *Schedule of Employer and Non-Employer Allocations and Schedule of Pension Amounts by Entity, Current Reporting Period Only*, provide entities with the required information for financial reporting.
2. The underlying financial information used to prepare the pension schedules is based on TRA's financial statements, which are prepared on the accrual basis of accounting. The financial statements are prepared in accordance with accounting principles generally accepted

in the United States of America (GAAP) that apply to governmental accounting for fiduciary funds.

3. The preparation of the pension schedules requires management to make a number of estimates and assumptions relating to the reported amounts. Due to the inherent nature and uncertainty of these estimates, actual results could differ, and the differences may be material.
4. Employer contributions with the employer paid dates that fall within TRA's fiscal year ending June 30, 2017, are used as the basis for determining each entity's proportionate share of the collective pension amounts reported in the *Schedule of Employer and Non-Employer Allocations*.
5. The *Schedule of Pension Amounts by Entity, Current Reporting Period Only*, presents deferred inflows of resources, deferred outflows of resources, and pension expense for the current reporting period (measurement period) only. In addition to the current period amounts reported on this schedule, entities need to account for deferred inflows of resources and deferred outflows of resources related to pensions from prior reporting periods and continue to amortize those amounts against pension expense (based on previously established amortization periods) in their financial statements in accordance with generally accepted accounting principles.
 - a. TRA calculated the deferred inflows of resources and deferred outflows of resources related to pensions for the change in proportion percentage from the end of the prior measurement period (June 30, 2016) to the end of the current measurement period (June 30, 2017) for the net pension liability only. Entities are responsible for accounting for the impact of the change in proportion from the prior measurement date to the current measurement date on deferred inflows of resources and deferred outflows of resources related to pensions and amortizing those amounts over the average estimated remaining service lives of all plan members, except for investment gains and losses, which should be amortized over five years.
 - b. TRA determined that the difference between employer and non-employer actual contributions and the contributions used in the proportionate share percentage calculation (the miscellaneous contributions not representative of future contribution efforts as further explained in Note 2.B.) were not material in the aggregate or to individual entities. Therefore, TRA did not include these differences as deferred inflows or outflows of resources related to pensions in the *Schedule of Pension Amounts by Entity, Current Reporting Period Only*.

- c. The following tables reflect the amortization of collective deferred outflows and inflows of resources related to pensions for the current reporting period only.

Deferred outflows of resources

The only deferred outflows arising in fiscal year ending June 30, 2017 relate to changes in proportion.

Deferred inflows of resources

(dollars in thousands)

	<u>Difference between expected and actual experience</u>	<u>Changes of Assumptions</u>	<u>Differences between projected and actual investment earnings</u>
Amortization period	6 years	6 years	5 years
Current period additions	\$ 167,572	3,355,602	1,341,340
Amortized in period ending June 30,			
2017	27,929	559,267	268,268
2018	27,929	559,267	268,268
2019	27,929	559,267	268,268
2020	27,929	559,267	268,268
2021	27,929	559,267	268,268
2022	27,927	559,267	-

6. The components of the calculation of the net pension liability of TRA for participating employers and the special funding contributors (non-employer contributing entities) as of June 30, 2017, calculated in accordance with GASB Statement No. 67, are shown below (in thousands).

Total pension liability (A)	\$41,219,904
Plan fiduciary net position (B)	<u>\$21,258,090</u>
Net pension liability (A-B)	\$19,961,814
Plan fiduciary net position as a percentage of the total pension liability (B/A)	51.57%

The total pension liability is calculated by TRA's actuary.

B. Reconciliation of financial statement employer contributions to total contributions reported on the *Schedule of Employer and Non-Employer Allocations*

While GASB 68 allows the employer's proportionate share of the collective pension amounts to be based on historical employer contributions, it encourages the use of the employer's projected long-term contributions effort to the retirement plan. Therefore, the employer's proportionate share reported in the *Schedule of Employer and Non-Employer Allocations* is calculated using historical employer contributions, with two adjustments to employer contributions that are not reflective of future contributions. The following is a reconciliation of employer contributions in TRA's Comprehensive Annual Financial Report (CAFR) "Statement of Changes in Fiduciary Net Position" to the contributions used in the *Schedule of Employer and Non-Employer Allocations*.

(dollars in thousands)

Employer contributions reported in TRA's CAFR, Statement of Changes in Fiduciary Net Position	\$367,791
Add employer contributions not related to future contribution efforts	810
Deduct TRA's contributions not included in allocation	<u>(456)</u>
Total employer contributions	\$368,145
Total non-employer contributions	<u>35,588</u>
Total contributions reported in the <i>Schedule of Employer and Non-Employer Allocations</i>	<u>\$403,733</u>

NOTE 3: ACTUARIAL METHODS AND ASSUMPTIONS

The total pension liability in the June 30, 2017, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement.

Key Methods and Assumptions Used in Valuation of Total Pension Liability	
Actuarial Information	
Valuation date	July 1, 2017
Experience study	June 5, 2015 November 6, 2017 (economic assumptions)
Actuarial cost method	Entry Age Normal
Actuarial assumptions:	
Investment rate of return	5.12%, from the Single Equivalent Interest Rate calculation
Price inflation	2.50%
Wage growth rate	2.85% for 10 years and 3.25%, thereafter
Projected salary increase	2.85 to 8.85% for 10 years and 3.25 – 9.25%, thereafter
Cost of living adjustment	2.0%
Mortality assumptions	
Pre-retirement:	RP- 2014 white collar employee table, male rates set back six years and female rates set back five years. Generational projection uses the MP-2015 scale.
Post-retirement:	RP-2014 white collar annuitant table, male rates set back three years and female rates set back three years, with further adjustments of the rates. Generational projection uses the MP-2015 scale.
Post-disability:	RP-2014 disabled retiree mortality table, without adjustment.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

The total pension liability (TPL) is calculated using a discount rate called the Single Equivalent Interest Rate (SEIR). The projection of cash flows used to determine the discount rate was performed in accordance with GASB 67. On that basis, TRA's Fiduciary Net Position (FNP) was projected to be depleted in 2053 and, as a result, the Municipal Bond Index Rate was used in the determination of the SEIR. There was a change in the Municipal Bond Index Rate from 3.01 percent on the Prior Measurement Date to 3.56 percent on the current Measurement Date.

The long-term expected rate of return of 7.50 percent on plan investments was applied to periods before 2053 and the Municipal Bond Index Rate of 3.56 percent was applied to periods on and after 2053, resulting in an SEIR of 5.12 percent.

The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Domestic stocks	39%	5.10%
International stocks	19%	5.00
Bonds	20%	0.75
Alternative assets	20%	5.90
Unallocated cash	<u>2%</u>	0.00
Total	<u>100%</u>	

The following presents the net pension liability of TRA calculated using the discount rate of 5.12 percent, as well as what the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (4.12 percent) or one percentage point higher (6.12 percent) than the current rate.

Sensitivity of Net Pension Liability (NPL) to Changes in the Discount Rate <i>(dollars in thousands)</i>			
	1% Decrease (4.12%)	Current Discount Rate (5.12%)	1% Increase (6.12%)
NPL	\$26,345,748	\$19,961,814	\$14,759,381

The TRA actuary has determined the average of the expected remaining service lives of all members for fiscal year 2017 to be six years. The *Differences Between Expected and Actual Experience*, *Changes of Assumptions*, and *Changes in Proportion* use this amortization period of six years in the schedule presented. The amortization period for *Net Difference Between Projected and Actual Investment Earnings on Pension Plan Investments* is five years as required by GASB 68.

NOTE 4: PENSION EXPENSE

The components of pension expense reported in the *Schedule of Pension Amounts by Entity, Current Reporting Period Only*, for the period ending June 30, 2017, are presented below.

<i>(dollars in thousands)</i>	
Service cost	\$ 1,267,304
Interest on the total pension liability	1,975,771
Current-period benefit changes	0
Expensed portion of current-period difference between expected and actual experience in the total pension liability	(27,929)
Expensed portion of current-period changes of assumptions	(559,267)
Member contributions	(361,175)
Projected earnings on plan investments	(1,513,878)
Expensed portion of current-period differences between actual and projected earnings on plan investments	(268,268)
Administrative expense	11,702
Other	<u>(2,404)</u>
Total pension expense	\$ 521,856
Less TRA employer contributions and miscellaneous adjustments	<u>(456)</u>
Pension expense – Schedule Of Pension Amounts By Entity, Current Reporting Period Only	<u>\$ 521,400</u>

NOTE 5: ADDITIONAL FINANCIAL AND ACTUARIAL INFORMATION

Additional financial information supporting the preparation of the *Schedule of Employer and Non-Employer Allocations* and the *Schedule of Pension Amounts by Entity, Current Reporting Period Only* is located in TRA's Comprehensive Annual Financial Report for the fiscal year ended June 30, 2017. The supporting actuarial information can be found in the GASB 67-68 report. Both reports can be obtained at <https://MinnesotaTRA.org/FORMSPUB/eepubs.html>
