Report on Audit of Schedule of Allocations and Schedule of Collective Pension Amounts

Opinions

We have audited the accompanying schedule of employer allocations of the Teachers' Retirement System of Oklahoma (the System) as of and for the year ended June 30, 2022, and related notes. We have also audited the totals for the columns titled net pension liability, total deferred outflows of resources, total deferred inflow of resources and plan pension expense (specified column totals) included in the accompanying schedule of collective pension amounts (collectively the Schedules) of the System as of and for the year ended June 30, 2022.

In our opinion, the Schedules referred to above present fairly, in all material respects, the employer allocations and net pension liability, total deferred outflows of resources, total deferred inflow of resources, and plan pension expense for the System as of and for the year ended June 30, 2022, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Schedules section of our report. We are required to be independent of the Fund and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Other Matters

We have audited, in accordance with auditing standards generally accepted in the United States of America, the financial statements of the System as of and for the year ended June 30, 2022, and our report thereon, dated October 12, 2022, expressed an unmodified opinion on those financial statements.

Responsibilities of Management for the Schedules

Management is responsible for the preparation and fair presentation of the Schedules in accordance with accounting principles generally accepted in the United States of America; and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the Schedules that is free from material misstatement, whether due to fraud or error.

Auditor's Responsibilities for the Audit of the Schedules

Our objectives are to obtain reasonable assurance about whether the Schedules as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the Schedules.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the Schedules, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the Schedules.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the System's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the Schedules.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Restriction on Use

Our report is intended solely for the information and use of the System's management, the System Board of Trustees, System employers and their auditors and is not intended to be and should not be used by anyone other than these specified parties.

* Employer specific amounts that are excluded from this schedule are the changes in proportion, differences between employer contributions and proportionate share of contributions, and employer contributions subsequent to the measurement date.

Note 1 - Nature of Entity

The following brief description of the Teachers' Retirement System of Oklahoma (the System) is provided for general information purposes only. The plan's benefits are established and amended by State Statute and participants should refer to Title 70 of the Oklahoma Statutes, Sections 17-101 through 17-122.1 as amended.

The System was established as of July 1, 1943 for the purpose of providing retirement allowances and other specified benefits for qualified persons employed by state-supported educational institutions. The System is a part of the State of Oklahoma financial reporting entity, which is combined with other similar funds to comprise the fiduciary-pension trust funds of the State of Oklahoma (the State). The System administers a cost-sharing multiple-employer pension plan which is a defined benefit pension plan (the Plan).

The supervisory authority for the management and operation of the System is a 15-member board of trustees, which acts as a fiduciary for investment of the funds and the application of plan interpretations. The board of trustees is comprised of six appointees from the Governor's Office, two appointees by the Senate Pro Tempore, two appointees by the House Speaker, four Ex Officio positions, and one non-voting member representing a qualified retired educators' association. Out of the six appointees from the Governor's Office, one must be a Higher Education representative, one is a nonclassified optional personnel, and the remaining four must work in the public or private funds management, banking, law or accounting field. Out of the two Senate Pro Tempore's as well as the House Speaker's appointees, one must be an active classroom teacher while the other be a retired member of Teachers' Retirement System of Oklahoma. The Ex Officio trustees are the State Superintendent, the Office of Management and Enterprise Services Director, the Career-Tech Director, and the State Treasurer or their designee.

Defined Benefit Pension Plan

Oklahoma teachers and other certified employees of common schools, faculty and administrators in public colleges and universities, and administrative personnel of state educational boards and employees of agencies must join the Plan. Membership is optional for all other regular employees of public educational institutions who work at least 20 hours per week. Additional information regarding Plan provisions can be found in the System's annual comprehensive financial report, which can be accessed as described in Note 7.

Note 2 - Summary of Significant Accounting Policies

The Schedule of Employer Allocations and the Schedule of Collective Pension Amounts (the Schedules) for the Plan were prepared in accordance with the following significant accounting policies.

Nature of the Schedules

The purpose of these Schedules is to provide employers information for their financial statements. The Schedules provide each employer with the basis used to determine their proportionate share of the net pension liability, deferred outflows and inflows of resources, and pension expense as of and for the year ended June 30, 2022. Deferred outflows and inflows of resources, and pension expense include: each employer's proportionate

share of plan level amounts such as differences between expected and actual experience, the net difference between projected and actual investment earnings on pension plan investments and changes in assumptions.

The Schedule of Collective Pension Amounts represents collective amounts for the Plan. This Schedule excludes employer-specific deferral amounts that may need to be recognized to comply with governmental accounting standards. Specifically, this schedule excludes deferral amounts arising from the changes in employer proportion, differences between employer contributions and proportionate share of contributions and employer contributions subsequent to the measurement date.

Measurement Focus and Basis of Accounting

Financial transactions are recorded using the economic resources measurement focus and the accrual basis of accounting. Employer contributions are recognized as revenue when due pursuant to statutory or contractual requirements.

Use of Estimates

The preparation of the Schedules in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts for the net pension liability, deferred outflow of resources and deferred inflow of resources, and changes therein, and disclosures. Actual results could differ from those estimates and differences could be material.

Basis of the Allocation

In determining the proportionate share of the net pension liability and corresponding employer pension amounts for a cost-sharing plan, the basis should be consistent with the manner in which contributions are made to the Plan, excluding those to separately finance specific liabilities of an individual employer. The System has determined that each employer's proportionate share will be determined based on the employer's contribution to the Plan as a percentage of the total contribution to the Plan by all employers.

Contributions are reported using the accrual basis of accounting. The fiscal year 2022 employer contribution total used as the denominator for the allocation calculation in the schedule of employer allocations can be reconciled to the System's Annual Comprehensive Financial Report (ACFR) for the fiscal year ended June 30, 2022, as follows:

Contributions from employers and matching funds per the System's ACFR	\$ 542,901,839
Refunds and other adjustments	<u>(191,846)</u>
Contributions per schedule of employer allocations	<u><u>\$ 542,709,993</u></u>

Note 3 - Net Pension Liability

The net pension liability (NPL) is the portion of the actuarial present value of projected benefit payments related to past periods. The NPL for the employers is based on the allocation percentages from the Schedule of Employer Allocations.

The net pension liability for fiscal year 2022 is calculated as set forth below in the following table:

Net pension liability, beginning	\$ 5,108,827,036
Total pension expense	809,494,083
Change in deferred outflow of resources	466,837,227
Change in deferred inflow of resources	2,791,629,528
Defined benefit plan employer contributions	(495,861,085)
State contributions	(424,507,378)
State matching funds	(47,040,754)
	<u>\$ 8,209,378,657</u>
Net pension liability - per Schedule of Collective Pension Amounts	<u>\$ 8,209,378,657</u>

The components of the net pension liability at June 30, 2022, were as follows:

Total pension liability	\$ 27,410,915,544
Plan fiduciary net position	<u>(19,201,536,887)</u>
	<u>\$ 8,209,378,657</u>
Net pension liability per Schedule of Collective Pension Amounts	<u>\$ 8,209,378,657</u>
Plan fiduciary net position as a percentage of total pension liability	<u>70.05%</u>

Sensitivity of the net pension liability to changes in the discount rate – The following presents the net pension liability of the Plan's employers calculated using the discount rate of 7.00% as well as what the employers' liability would be if it were calculated using a discount rate that is 1-percentage point lower or 1-percentage point higher than the current rate:

	1% Decrease (6.00%)	Current Discount Rate (7.00%)	1% Increase (8.00%)
Employer's net pension liability	<u>\$ 11,558,854,353</u>	<u>\$ 8,209,378,657</u>	<u>\$ 5,455,716,502</u>

The total pension liability as of June 30, 2022, was determined based on an actuarial valuation prepared as of June 30, 2022 using the following actuarial assumptions:

- Actuarial Cost Method—Entry Age Normal.
- Inflation—2.25 percent.
- Future Ad Hoc Cost-of-living Increases-None.

- Salary Increases—Composed of 2.25 percent wage inflation, plus .75% productivity increase rate, plus step-rate promotional increase for members with less than 25 years of service.
- Investment Rate of Return – 7.00 percent.
- Retirement Age— Experience-based table of rates based on age, service, and gender. Adopted by the Board in July 2020 in conjunction with the five-year experience study for the period ending June 30, 2019.
- Mortality Rates after Retirement—Males and females: 2020 GRS Southwest Region Teacher Mortality Table. Generational mortality improvements with the Ultimate MP scales are projected from the year 2020.
- Mortality Rates for Active Members—Pub-2010 Teachers Active Employee Mortality table. Generational mortality improvements in accordance with the Ultimate MP scales are projected from the year 2010.

Note 4 - Average Expected Remaining Service Life

The average expected remaining service life of the Plan is determined by taking the calculated total future service years of the Plan divided by the number of people in the Plan including retirees. The total future service years of the Plan are determined using the mortality, termination, retirement, and disability assumptions associated with the Plan. The average expected service life of the Plan equals 5.23 years as of the valuation date June 30, 2022.

Note 5 - Types of Deferred Outflows and Inflows of Resources

Deferred outflows of resources are the consumption of net position that is applicable to future reporting periods. Deferred inflows of resources are the acquisition of net position that is applicable to future reporting periods.

Difference Between Expected and Actual Experience

The actuary uses assumptions such as future salary increases and inflation to develop what they expect to be the experience of the Plan. Each year the difference between the expected experience and the actual experience is amortized over the average expected remaining service life of the Plan.

Net Difference Between Projected and Actual Investment Earnings

The actuary uses the Plan's long- term rate of return to project investment earnings net of investment expenses. The difference between the expected and the actual investment earnings is deferred and amortized over five years.

Changes in Assumptions

The impact of changes in assumptions used by the actuary is amortized over the average expected remaining service life of the Plan.

Amortization

The amortization of deferred outflows and inflows at June 30, 2022 is as follows:

	Total
2023	\$ 497,572,498
2024	369,061,414
2025	(82,363,260)
2026	708,676,643
2027	2,787,763
	<u>\$ 1,495,735,058</u>

Note 6 - Pension Expense

Pension expense includes amounts for service cost (the Normal Cost under Entry Age Normal for the year), interest on the total pension liability, changes in the benefit structure, recognition of increases/decreases in liability due to actual versus expected experience, actuarial assumption changes, and investment gains/losses on the fair value of assets. The actual experience and assumption change impacts are recognized over the average expected remaining service life of the Plan membership as of the measurement date.

The collective pension expense for fiscal year 2022 is calculated as set forth below in the following table:

Service cost	\$ 513,417,762
Interest on total pension liability	1,824,570,006
Member contributions	(366,066,840)
Projected earnings on plan investments	(1,495,449,824)
Administrative expense	5,837,976
Recognition of beginning deferred outflows (inflows) due to liabilities	239,921,870
Recognition of beginning deferred outflows (inflows) due to assets	87,263,133
	<u>\$ 809,494,083</u>
Allocated pension expense per schedule of pension amounts by employer	<u>\$ 809,494,083</u>
