Independent Auditor's Report

Public Employees' Retirement Board
of the State of Nevada
Carson City, Nevada

Report on the Schedules

We have audited the accompanying schedule of employer allocations of the Public Employees' Retirement System of Nevada's (the System) Cost-Sharing Multiple-Employer Defined Benefit Pension Plan (the Plan) as of and for the year ended June 30, 2019, and the related notes. We have also audited the total for all entities of the columns titled net pension liability, total deferred outflows of resources, total deferred inflows of resources, and total employer pension expense/(income) (specified column totals) included in the accompanying schedule of pension amounts by employer of the Plan as of and for the year ended June 30, 2019, and the related notes.

Management's Responsibility for the Schedules

Management is responsible for the preparation and fair presentation of these schedules in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the schedules that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on the schedule of employer allocations and the specified column totals included in the schedule of pension amounts by employer based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the schedule of employer allocations and specified column totals included in the schedule of pension amounts by employer are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the schedule of employer allocations and specified column totals included in the schedule of pension amounts by employer. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the schedule of employer allocations and specified column totals included in the schedule of pension amounts by employer, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the schedule of employer allocations and specified column totals included in the schedule of pension amounts by employer in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the schedule of employer allocations and specified column totals included in the schedule of pension amounts by employer.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions

Opinions

In our opinion, the schedules referred to above present fairly, in all material respects, the employer allocations and net pension liability, total deferred outflows of resources, total deferred inflows of resources, and total employer pension expense/(income) for the total of all participating entities for the Public Employees' Retirement System of Nevada's Cost-Sharing Multiple-Employer Defined Benefit Pension Plan as of and for the year ended June 30, 2019, in accordance with accounting principles generally accepted in the United States of America.

Other Matter

We have audited, in accordance with auditing standards generally accepted in the United States of America, the financial statements of the Public Employees' Retirement System of Nevada's Cost-Sharing Multiple-Employer Defined Benefit Pension Plan as of and for the year ended June 30, 2019, and our report thereon, dated December 9, 2019, expressed an unmodified opinion on those financial statements.

Restriction on Use

Our report is intended solely for the information and use of the System's management, the Audit Committee, the Retirement Board, the System's participating employers and their auditors and is not intended to be and should not be used by anyone other than these specified parties.

A handwritten signature in black ink that reads "Macias Gini & O'Connell LLP". The signature is written in a cursive, flowing style.

Notes to Schedules

Note 1: Summary of Significant Accounting and Reporting Policies

For purposes of measuring the net pension liability, deferred outflows of resources, deferred inflows of resources and pension expense, information about the fiduciary net position of the Public Employees' Retirement System of Nevada (PERS or System) and additions to/deductions from PERS' fiduciary net position have been determined on the same basis as they are reported by PERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

A. Basis of accounting

1. Employers participating in PERS cost-sharing, multiple-employer, defined benefit plan are required to report pension information in their financial statements, in accordance with Governmental Accounting Standards Board (GASB) Statement No. 68, *Accounting and Financial Reporting for Pensions*. The Schedule of Employer Allocations and Schedule of Pension Amounts by Employer provide employers with the required information for financial reporting.
2. The underlying financial information used to prepare the pension allocation schedules is based on PERS' financial statements. PERS' financial statements are prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) that apply to governmental accounting for fiduciary funds.
3. Contributions for employer pay dates that fall within PERS' year ended June 30, 2019, are used as the basis for determining each employer's proportionate share of the collective contribution amounts reported in the Schedule of Employer Allocations.
4. The total pension liability is calculated by PERS' actuary. The plan's fiduciary net position is reported in PERS' financial statements and the net pension liability is disclosed in PERS' notes to the financial statements.
5. The Public Employees' Retirement System of Nevada's financial statements required the use of estimates and assumptions. The actual results may differ from these amounts.

B. Reconciliation of employer contributions in PERS' Statement of Changes in Fiduciary Net Position to the employer contributions used in determining each employer's proportionate share of the collective contribution amounts reported in the Schedule of Employer Allocations.

	Total Employer Contributions
Contributions per CAFR FY19 p. 29	\$ 965,518,968
Deduct	
PERS Contributions	(650,361)
Contributions not representative of future effort	<u>(2,203,621)</u>
Total Contributions in Schedule of Employer Allocations	\$ <u>962,664,986</u>

Note 2: Plan Description

PERS administers a cost-sharing, multiple-employer, defined benefit pension plan, which includes both Regular and Police/Fire members. The System was established by the Nevada Legislature in 1947, effective July 1, 1948. The System is administered to provide a reasonable base income to qualified employees who have been employed by a public employer and whose earning capacities have been removed or substantially impaired by age or disability.

A. Benefits Provided

1. Benefits, as required by the Nevada Revised Statutes (NRS or statute), are determined by the number of years of accredited service at time of retirement and the member's highest average compensation in any 36 consecutive months with special provisions for members entering the System on or after January 1, 2010, and July 1, 2015. Benefit payments to which participants or their beneficiaries may be entitled under the plan include pension benefits, disability benefits, and survivor benefits.
2. Monthly benefit allowances for members are computed as 2.50% of average compensation for each accredited year of service prior to July 1, 2001. For service earned on and after July 1, 2001, this factor is 2.67% of average compensation. For members entering the System on or after January 1, 2010, there is a 2.50% service time factor and for regular members entering the System on or after July 1, 2015, there is a 2.25% factor. The System offers several

alternatives to the unmodified service retirement allowance which, in general, allow the retired employee to accept a reduced service retirement allowance payable monthly during his or her lifetime and various optional monthly payments to a named beneficiary after his or her death.

3. Post-retirement increases are provided by authority of NRS 286.575 - .579.

B. Vesting

1. Regular members entering the System prior to January 1, 2010, are eligible for retirement at age 65 with 5 years of service, at age 60 with 10 years of service, or at any age with 30 years of service. Regular members entering the System on or after January 1, 2010, are eligible for retirement at age 65 with 5 years of service, or age 62 with 10 years of service, or any age with 30 years of service. Regular members who entered the System on or after July 1, 2015, are eligible for retirement at age 65 with 5 years of service, or at age 62 with 10 years of service, or at age 55 with 30 years of service, or any age with 33 1/3 years of service.
2. Police/Fire members entering the System prior to January 1, 2010, are eligible for retirement at age 65 with 5 years of service, at age 55 with 10 years of service, at age 50 with 20 years of service, or at any age with 25 years of service. Police/Fire members entering the System on or after January 1, 2010, are eligible for retirement at 65 with 5 years of service, or age 60 with 10 years of service, or age 50 with 20 years of service, or at any age with 30 years of service. Only service performed in a position as a police officer or firefighter may be counted towards eligibility for retirement as Police/Fire accredited service.
3. The normal ceiling limitation on monthly benefit allowances is 75% of average compensation. However, a member who has an effective date of membership before July 1, 1985, is entitled to a benefit of up to 90% of average compensation. Both Regular and Police/Fire members become fully vested as to benefits upon completion of five years of service.

C. Contributions

1. The authority for establishing and amending the obligation to make contributions and member contribution rates is set by statute. New hires, in agencies which did not elect the Employer-Pay Contribution (EPC) plan prior to July 1, 1983, have the option of selecting one of two contribution plans. In one plan, contributions are shared equally by employer and employee. In the other plan, employees can take a reduced salary and have contributions made by the employer (EPC).

2. The System's basic funding policy provides for periodic contributions at a level pattern of cost as a percentage of salary throughout an employee's working lifetime in order to accumulate sufficient assets to pay benefits when due.
3. The System receives an actuarial valuation on an annual basis indicating the contribution rates required to fund the System on an actuarial reserve basis. Contributions made are in accordance with the required rates established by the Nevada Legislature. These statutory rates are increased/decreased pursuant to NRS 286.421 and 286.450.
4. The actuarial funding method used is the Entry Age Normal Cost Method. It is intended to meet the funding objective and results in a relatively level long-term contribution requirement as a percentage of salary.
5. For the year ended June 30, 2019, the statutory Employer/Employee matching rate was 14.50% for Regular and 20.75% for Police/Fire. The Employer-pay contribution (EPC) rate was 28.00% for Regular and 40.50% for Police/Fire.

Note 3: Investment Policy

The System's policies which determine the investment portfolio target asset allocation are established by the Board. The asset allocation is reviewed annually and is designed to meet the future risk and return needs of the System.

The following was the Board adopted policy target asset allocation as of June 30, 2019:

Asset Class	Target Allocation	Long-Term Geometric Expected Real Rate of Return*
U.S. stocks	42%	5.50%
International stocks	18%	5.50%
U.S. bonds	28%	0.75%
Private markets	12%	6.65%

*As of June 30, 2019, PERS' long-term inflation assumption was 2.75%

Note 4: Net Pension Liability

A. Net Pension Liability

The components of the net pension liability at June 30, 2019 were as follows:

Total pension liability	\$ 57,920,215,973
Plan fiduciary net position	(44,284,252,583)
Net pension liability	<u>\$ 13,635,963,390</u>

The net pension liability was measured as of June 30, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The employer allocation percentage of the net pension liability was based on the total contributions due on wages paid during the measurement period. Each employer's proportion of the net pension liability is based on their employer contributions relative to the total employer contributions for all employers for the year ended June 30, 2019.

B. Pension Liability Discount Rate Sensitivity

The following presents the net pension liability of PERS as of June 30, 2019, calculated using the discount rate of 7.50%, as well as what PERS' net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.50%) or 1-percentage-point higher (8.50%) than the current discount rate:

	1% Decrease in Discount Rate (6.50%)	Discount Rate (7.50%)	1% Increase in Discount Rate (8.50%)
Net Pension Liability	\$21,113,639,011	\$13,635,963,390	\$7,420,117,489

C. Pension Plan Fiduciary Net Position

Detailed information about the pension plan's fiduciary net position is available in PERS' Comprehensive Annual Financial Report (CAFR), available on the PERS website www.nvpers.org.

D. Actuarial Assumptions

The System's net pension liability was measured as of June 30, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as

of that date. The total pension liability was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation rate	2.75%
Productivity pay increase	0.50%
Projected salary increases	Regular: 4.25% to 9.15%, depending on service Police/Fire: 4.55% to 13.90%, depending on service Rates include inflation and productivity increases
Investment rate of return	7.50%
Other assumptions	Same as those used in the June 30, 2019 funding actuarial valuation

Actuarial assumptions used in the June 30, 2019 valuation were based on the results of the experience study for the period July 1, 2012 through June 30, 2016.

The discount rate used to measure the total pension liability was 7.50% as of June 30, 2019. The projection of cash flows used to determine the discount rate assumed plan contributions will be made in amounts consistent with statutory provisions and recognizing the plan's current funding policy and cost-sharing mechanism between employers and members. For this purpose, all contributions that are intended to fund benefits for all plan members and their beneficiaries are included, except that projected contributions that are intended to fund the service costs for future plan members and their beneficiaries are not included.

Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments for current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability as of June 30, 2019.

E. Pension Expense, Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

As of June 30, 2019, the total employer pension expense was \$1,417,033,055. At June 30, 2019, the measurement date, PERS reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual experience	\$511,333,039	\$393,312,022
Changes of assumptions or other inputs	\$554,927,320	\$0
Net difference between projected and actual earnings on pension plan investments	N/A	\$678,340,230
Changes in proportion	\$701,150,452	\$701,150,452

The amount in the table listed above for the deferred inflows of resources for the changes in proportion does not tie to the Schedule of Pension Amounts by Employer because the PERS agency is not included in the schedule. This variance will disappear within two years, once it is fully amortized.

Average expected remaining service lives 6.18 years

Collective deferred outflows/(inflows) of resources related to pension will be recognized as follows:

Reporting period ended June 30:	
2021	\$38,402,519
2022	(258,737,496)
2023	71,081,571
2024	88,053,182
2025	50,041,866
2026	5,766,465
Thereafter	0

Note 5: Subsequent Events

In fiscal year 2020, a novel strain of the coronavirus has spread around the world causing a global public health emergency and economic disruption. As of the date of this report, PERS is able to perform all necessary business functions. The extent to which the coronavirus may impact PERS going forward is highly uncertain and cannot be predicted at this time.

Note 6: Additional Information

The PERS' CAFR is available on our website: www.nvpers.org under Quick Links – Publications.
