July 14, 2016

Public Employees Retirement Board
Nebraska Public Employees Retirement Systems
Post Office Box 94816
Lincoln, NE 68509

Dear Members of the Board:

Presented in this report is information to assist the Nebraska Public Employees Retirement System in providing information required under the Governmental Accounting Standards Board (GASB) Statement No. 68 to participating employers and contributing entities of the School Retirement System of the Nebraska Public Employees Retirement System. GASB Statement No. 68 establishes accounting and financial reporting requirements for governmental employers who provide pension benefits to their employees through a trust. This report has been prepared as of June 30, 2015. Please note that although the funding for both the Nebraska School Retirement System and Service Annuity Fund are commingled in one trust, separate reporting has been prepared under GASB 68. This report includes only the relevant GASB 68 information and schedules for the Nebraska School Retirement Plan.

The annual actuarial valuation used as the basis for much of the information presented in this report was performed as of July 1, 2015. The valuation was based upon data, furnished by the Nebraska Public Employees Retirement System staff, concerning active, inactive and retired members along with pertinent financial information. This information was reviewed for completeness and internal consistency, but was not audited by us. The valuation results depend on the integrity of the data. If any of the information is inaccurate or incomplete, our results may be different and our calculations may need to be revised. Please see the actuarial valuation for additional details on the funding requirements for the System including actuarial assumptions and methods and the Plan's funding policy.

To the best of our knowledge, the information contained in this report is complete and accurate. Certain information about the Plan and where additional information can be found was provided by the Nebraska Public Employees Retirement System and used in this report. The calculations were performed by qualified actuaries according to generally accepted actuarial principles and practices, as well as in conformity with Actuarial Standards of Practice issued by the Actuarial Standards Board. The calculations are based on the current provisions of the System, and on actuarial assumptions that are internally consistent and individually reasonable based on the actual experience of the System. In addition, the calculations were completed in compliance with applicable law and, in our opinion, meet the requirements of GASB 68.

These results are only for financial reporting and may not be appropriate for funding purposes or other types of analysis. Calculations for purposes other than satisfying the requirements of GASB 68 may produce significantly different results. Future actuarial results may differ significantly from the current results presented in this report due to such factors as changes in plan experience or changes in economic or demographic assumptions.

We, Patrice A. Beckham, FSA and Brent A. Banister, FSA, are members of the American Academy of Actuaries and meet the Qualification Standards to render the actuarial opinion contained herein. We are available to answer any questions on the material contained in this report or to provide explanations or further details as may be appropriate.

Respectfully submitted,

A handwritten signature in blue ink that reads 'Patrice Beckham' in a cursive script.

GASB STATEMENT NO. 68
NEBRASKA PUBLIC EMPLOYEES RETIREMENT SYSTEM
SCHOOL RETIREMENT SYSTEM

SECTION I - SUMMARY OF PRINCIPAL RESULTS

Valuation Date (VD):	July 1, 2015
Prior Measurement Date:	June 30, 2014
Measurement Date (MD):	June 30, 2015
Membership Data:	
Retirees and Beneficiaries	21,836
Inactive Vested Members	5,891
Inactive Nonvested Members	15,122
Active Employees	<u>40,994</u>
Total	83,843
Single Equivalent Interest Rate (SEIR):	
Long-Term Expected Rate of Return	8.00%
Municipal Bond Index Rate at Prior Measurement Date	4.35%
Municipal Bond Index Rate at Measurement Date	3.82%
Year in which Fiduciary Net Position is Projected to be Depleted	N/A
Single Equivalent Interest Rate at Prior Measurement Date	8.00%
Single Equivalent Interest Rate at Measurement Date	8.00%
Collective Net Pension Liability:	
Total Pension Liability (TPL)	\$10,763,621,051
Fiduciary Net Position (FNP)	<u>9,674,525,314</u>
Net Pension Liability (NPL = TPL – FNP)	\$1,089,095,737
FNP as a percentage of TPL	89.88%
Collective Pension Expense/(Income):	(\$25,375,898)
Collective Deferred Outflows of Resources:	\$339,514,801
Collective Deferred Inflows of Resources:	\$699,771,461

SECTION II – INTRODUCTION

The Governmental Accounting Standards Board issued Statement No. 68 (GASB 68), “*Accounting and Financial Reporting for Pensions*” in June 2012. GASB 68’s effective date for employers was the first fiscal year beginning after June 15, 2014.

This report, prepared as of June 30, 2015 (the Measurement Date), presents information to assist the Nebraska Public Employees Retirement System in providing the required information under GASB 68 to participating employers of the School Retirement System. The School Retirement System of the Nebraska Public Employees Retirement System is a cost-sharing multiple employer plan, so the Collective Net Pension Liability and Collective Pension Expense/(Income) are allocated among the participating employers and non-employer contributing entities. Those amounts, which are needed for the employers’ financial statements, are provided in Appendix D. Employers may use the information in this report for their fiscal years ending on or before June 30, 2016.

GASB 68 replaces GASB 27 and also represents a significant departure from the requirements of the prior statement. GASB 27 required employers providing benefits through pension plans to report items consistent with the results of the plan’s actuarial valuations for funding, as long as those valuations met certain parameters. Employers participating in a cost-sharing multiple employer plan, such as the School Retirement System of the Nebraska Public Employees Retirement System, only had to disclose the amount of the required contribution as well as the actual contribution. GASB 68 creates disclosure and reporting requirements that may or may not be consistent with the basis used for funding the System. In fact, GASB 68 paragraph 159 states:

“The Board concluded that it is not within the scope of its activities to set standards that establish a specific method of financing pensions (that being a policy decision for government officials or other responsible authorities to make) or to regulate a government’s compliance with the financing policy or method it adopts. Accordingly, the Board established standards in this Statement within the context of accounting and financial reporting, not within the context of the funding of pensions.”

Much of the material provided in this report is based on the results of the July 1, 2015 Actuarial Valuation report for the School Retirement System of the Nebraska Public Employees Retirement System, which was issued November 11, 2015. See that report for more information on the member data, actuarial assumptions and methods used in developing these results.

Two major changes in GASB 68 are the requirements to include a Net Pension Liability (NPL) on the employer’s Statement of Net Position and to determine a Pension Expense/(Income) (PE) in the Notes to the Financial Statements that may bear little relationship to the employer’s funding requirements. In fact, it is possible for the PE to be a negative expense item in some years. The NPL is set equal to the Total Pension Liability (TPL) minus the Fiduciary Net Position (FNP). The benefit provisions recognized in the calculation of the TPL are summarized in Appendix B.

PE includes amounts for Service Cost (the Normal Cost under Entry Age Normal (EAN) for the year), interest on the TPL, employee contributions, administrative expenses, other cash flows during the year, recognition of increases/decreases in the TPL due to changes in the benefit structure, actual versus expected experience, and actuarial assumption changes, and recognition of investment gains/losses. The actual experience and assumption change impacts are recognized over the average expected remaining service life of the Plan membership as of the beginning of the measurement period, while investment gains/losses are recognized equally over five years. The development of the PE is shown in Section III. The unrecognized portions of each year's experience, assumption changes and investment gains/losses are used to develop Deferred Inflows of Resources and Deferred Outflows of Resources, which also must be included on the employers' Statement of Net Position.

Among the items needed for the TPL calculation is a discount rate, as defined by GASB, or a Single Equivalent Interest Rate (SEIR). To determine the SEIR, the FNP must be projected into the future for as long as there are anticipated benefits payable under the plan's provision applicable to the membership and beneficiaries of the Plan on the Measurement Date. If the FNP is not projected to be depleted at any point in the future, the long-term expected rate of return on plan investments expected to be used to finance the benefit payments may be used as the SEIR.

If, however, the FNP is projected to be depleted at a future measurement date, the SEIR is determined as the single rate that will generate a present value of benefit payments equal to the sum of the present value determined by discounting all projected benefit payments through the date of depletion by the long-term expected rate of return, and the present value determined by discounting those benefits after the depletion date by a 20-year tax-exempt municipal bond (rating AA/Aa or higher) rate (Municipal Bond Index Rate). The rate used, if necessary, for this purpose is the Bond Buyer General Obligation 20-year Municipal Bond Index published monthly by the Board of Governors of the Federal Reserve System.

Our calculations indicated that the FNP is not projected to be depleted, so the Municipal Bond Index Rate is not used in the determination of the SEIR. A SEIR of 8.00% for both the Measurement Date and Prior Measurement Date meets the requirements of GASB 67 and 68.

The FNP projections are based upon the School Retirement System's financial status on the Measurement Date, the indicated set of methods and assumptions, and the requirements of GASB 67 and 68. As such, the FNP projections are not reflective of the cash flows and asset accumulations that would occur on an ongoing plan basis, reflecting the impact of future members. Therefore, the results of this test do not necessarily indicate whether or not the fund will actually run out of money, the financial condition of the School Retirement System, or the Plan's ability to make benefit payments in future years.

The benefits provided to both members of the Nebraska School Retirement System (whose membership includes school employees in all school districts in the state other than the Omaha Public School District) and the Service Annuity Fund (which covers only employees of the Omaha Public School District) are funded through one trust. However, separate contribution amounts are determined for each plan on a standalone basis. Paragraph 49 of GASB 68 provides "to the extent that different contribution rates are assessed based on separate relationships that constitute the NPL, the determination of the employer's

proportionate share of the collective NPL should be made in a manner that reflects those separate relationships”. Therefore, the calculation of the NPL, PE and Deferred Inflows of Resources and Deferred Outflows of Resources were performed separately for each group: School Retirement System and Service Annuity Fund. Only the information for the School Retirement System is reported here.

School employers participating in the Plan have fiscal years ending August 31st. Roll forward procedures have not been completed. The Nebraska Public Employees Retirement System expects all School employers will prepare financial statements in conformity with a comprehensive basis of accounting other than generally accepted accounting principles.

The sections that follow provide the results of all the required aggregate calculations, presented in the order laid out in GASB 68 for note disclosure and Required Supplementary Information (RSI). Some of this information was provided by the Nebraska Public Employees Retirement System for use in this report. The sections, not prepared by Cavanaugh Macdonald LLC, are: Paragraphs 74, 75, 76(a)-(d), 79, 80(f) and 82.

SECTION III – PENSION EXPENSE/(INCOME)

As noted earlier, the Pension Expense/(Income) (PE) consists of a number of different items. GASB 68 refers to the first item as Service Cost, which is the Normal Cost using the Entry Age Normal (EAN) actuarial funding method. The second item is interest on the TPL at 8.00%, the SEIR in effect as of the Prior Measurement Date.

The next three items refer to any changes that occurred in the TPL due to:

- benefit changes,
- actual versus expected experience, or
- changes in actuarial assumptions or other inputs.

Benefit changes, which are reflected immediately will increase PE if there is a benefit improvement for existing Plan members, or decrease PE if there is a benefit reduction. For the year ended June 30, 2015 there were no benefit changes to be recognized.

The next item to be recognized is the portion of current year changes in TPL due to actual versus expected experience for the year. The portion to recognize in the current year is determined by spreading the total change over the average expected remaining service life of the entire Plan membership at the beginning of the measurement period. The average expected remaining service life of active members is the average number of years the active members are expected to remain in covered employment. At the beginning of the measurement period this number is 10.74 years. The average expected remaining service life of the inactive members is zero. Therefore, the recognition period is the weighted average of these two amounts, or 5.30 years.

The last item under changes in TPL is changes in actuarial assumptions or other inputs. There were no changes in the actuarial assumptions or other inputs since the Prior Measurement Date. If there was such a change, the change would be recognized over the average expected remaining service life of the entire Plan membership, using the same approach that applied to experience gains and losses, as described in the prior paragraph.

Employee contributions for the year and projected earnings on the FNP at the long-term expected rate of return are subtracted from the amount determined thus far. One-fifth of current-period difference between projected and actual earnings on the FNP is recognized in the PE.

The current year portions of previously determined experience, assumption changes and earnings amounts, recognized as Collective Deferred Outflows of Resources and Collective Deferred Inflows of Resources are included next. Collective Deferred Outflows of Resources are added to the PE while Collective Deferred Inflows of Resources are subtracted from the PE. Finally, administrative expenses and other miscellaneous items are included.

The calculation of the Collective PE for the year ended June 30, 2015 is shown in the following table.

**Collective Pension Expense/(Income)
For the Year Ended**

June 30, 2015	
Service Cost at end of year	\$213,938,291
Interest on the Total Pension Liability	813,291,551
Benefit term changes	0
Expensed portion of current-period difference between expected and actual experience in the Total Pension Liability	(32,980,761)
Expensed portion of current-period assumption changes	0
Employee contributions	(174,797,341)
Projected earnings on plan investments	(750,426,028)
Expensed portion of current-period differences between projected and actual earnings on plan investments	79,003,548
Administrative expenses	3,153,883
Other changes*	(98,199)
Recognition of beginning Deferred Outflows of Resources	0
Recognition of beginning Deferred Inflows of Resources	(176,460,842)
Total Pension Expense/(Income)	(\$25,375,898)

* Other changes consist of (\$28,877) in miscellaneous additions to assets and (\$69,322) from the difference between employer contributions reported on the FNP Statement and employer contributions reported on Schedule of Allocated Proportion by Employer.

Note: Average expected remaining service life for all members is 5.30.

SECTION IV – NOTES TO FINANCIAL STATEMENTS

The material presented herein will follow the order presented in GASB 68. Paragraph numbers are provided for ease of reference.

Paragraph 74: This information is available in the State CAFR online at:
das.nebraska.gov/accounting/cafr/cafrcon.htm

Paragraph 75: The state of Nebraska is the plan sponsor for two cost-sharing multiple-employer defined benefit plans: the School Retirement System and the County Employees' Retirement System Cash Balance Benefit Fund. Information for paragraphs 76 to 80 for the School Retirement System can be found on the following pages. Similar information for the County Employees' Retirement System Cash Balance Benefit Fund can be found in the GASB 68 report for that Plan.

Paragraph 76(a): The name of the pension plan is the School Retirement System and it is administered by the Nebraska Public Employees Retirement Board which was created in 1971 to administer the Nebraska retirement plans. The School Retirement System is a cost-sharing multiple-employer defined benefit plan.

The School plan has been created in accordance with Internal Revenue Code Sections 401(a) and 414(h), and 414(k). Please refer to Neb. Rev. Stat. §§ 79-901 through 79-977.03 (Reissue 2014, Supp. 2015) for the School Employees Retirement Act. Benefit and contribution provisions are established by State law and may be amended only by the Nebraska Legislature.

Paragraph 76(b):

- (1) Classes of employees covered:** All permanent employees of a Nebraska school district (other than the Omaha Public School District), an educational service unit, the state or county (if the position with the state or county requires a teaching certificate), working at least 20 hours per week on an on-going, regular basis, or with a full-time contract. A permanent employee initially hired at less than 20 hours per week who provides service for 20 hours or more per week (80 hours per month) in any three calendar months of a plan year must be enrolled in the retirement plan for the next payroll period.
- (2) Types of benefits:** The main benefits provided are retirement benefits. However, the Plan also provides ancillary benefits in the event of pre-retirement death, disability, or termination of employment prior to meeting the eligibility requirements to retire.
- (3) Key elements of the pension formulas:** Normal retirement is at age 65. Unreduced benefits are also available for a member who is at least age 55 and whose age plus service equals or exceeds 85 (Rule of 85). The monthly benefit is equal to the greater of: 1) The sum of a savings annuity, which is the actuarial equivalent of the member's accumulated contributions and a service annuity equal to \$3.50 per year of service; or 2) the average of the three 12-month periods of service as a school employee in which such compensation was the greatest, multiplied by total years of creditable service, multiplied by a formula factor (currently 2.0%) set by statute, and an actuarial factor based on age.

For an employee who became a member on or after July 1, 2013, the monthly benefit is equal to the greater of: 1) The sum of a savings annuity, which is the actuarial equivalent of the member's accumulated contributions and a service annuity equal to \$3.50 per year of service; or 2) the average of the five 12-month periods of service as a school employee in which such compensation was the greatest, multiplied by total years of creditable service, multiplied by a formula factor (currently 2.0%) set by statute, and an actuarial factor based on age.

Benefit calculations vary with early retirement. Employees' benefits are vested after five years of plan participation or when termination occurs at age 65 or later.

- (4) Terms with respect to automatic postemployment benefit changes, including automatic COLAs and ad hoc COLAs:** For school employees who became members prior to July 1, 2013, the benefit paid to a retired member or beneficiary receives an annual cost-of-living adjustment, which is increased by the lesser of the percentage change in the Consumer Price Index for Urban Wage Earners and Clerical Workers or two and one-half percent. The current benefit paid to a retired member or beneficiary shall be adjusted so that the purchasing power of the benefit being paid is not less than 75% of the purchasing power of the initial benefit. For school employees who became members on or after July 1, 2013, the benefit paid to a retired member or beneficiary receives an annual cost-of-living adjustment, which is increased by the lesser of the percentage change in the Consumer Price Index for Urban Wage Earners and Clerical Workers or one percent.
- (5) Authority under which benefit terms are established or may be amended:** Benefit and contribution provisions are established by State law (Neb. Rev. Stat. §§ 79-901 through 79-977.03 (Reissue 2014, Supp. 2015) and may be amended only by the Nebraska Legislature.

Paragraph 76(c):

- (1) Basis for determining the employer's contributions to the plan:** Pursuant to state statute, a fixed contribution rate is made by the employers.
- (2) Identification of the authority under which contribution requirements of the employer and employees are established or may be amended:** contribution provisions are established by State law (Neb. Rev. Stat. §§ 79-901 through 79-977.03 (Reissue 2014, Supp. 2015) and may be amended only by the Nebraska Legislature.
- (3) The contribution rates (in dollars or as a percentage of covered payroll) of those entities for the reporting period:**

Members: Each member contributes 9.78% of monthly salary.

School Districts: The School Districts contribute 101% of the member contribution rate.

State contributions: The State contributes 2.00% of estimated payroll for the plan year.

Amount of contributions recognized by the pension plan from the employer during the reporting period (only the total amounts recognized as additions to the plan's fiduciary net position are reflected here): For the fiscal year ending June 30, 2015, the plan received \$173,013,848 in employer contribution and \$35,493,591 in state contributions.

Paragraph 76(d): Whether the pension plan issues a stand-alone financial report (or the pension plan is included in the report of a public employee retirement system or another government) that is available to the public and, if so, how to obtain the report: Annually, the Nebraska Public Employees Retirement System prepares stand-alone financial statements for the School Retirement System. The audited financial statement reports can be found at:

<http://www.nebraska.gov/auditor/FileSearch/entityresults.cgi?id=Retirement%20Systems%2C%20Public%20Employees>

Paragraph 77: This paragraph requires information to be disclosed regarding the significant actuarial assumptions and other inputs used to measure the TPL. The complete set of actuarial assumptions utilized in developing the TPL is outlined in Appendix C. The TPL was determined by an actuarial valuation performed as of July 1, 2015, using the following key actuarial assumptions:

Price Inflation	3.25 percent
Wage Inflation	4.00 percent
Salary increases, including wage inflation	4.00 – 9.00 percent
Cost-of-Living-Adjustment	Members hired before July 1, 2013: 2.50% with a floor benefit equal to 75% purchasing power of original benefit. Members hired on/after July 1, 2013: 1.00%
Long-term Rate of Return, net of investment expense, including price inflation	8.00 percent
Municipal Bond Index Rate	3.82 percent
Year FNP is Projected to be Depleted	N/A
Single Equivalent Interest Rate, net of investment expense, including price inflation	8.00 percent

Mortality

Pre-retirement mortality rates were based on the 1994 Group Annuity Mortality Table, projected to 2015 using Scale AA, set-back 1 year (55% of male rates for males, 40% of female rates for females).

Post-retirement mortality rates were based on the 1994 Group Annuity Mortality Table, projected to 2015 using Scale AA, set-back 1 year (sex distinct).

Disabled mortality rates were based on the 1983 Railroad Retirement Board Disabled Annuitants Mortality (unisex).

The actuarial assumptions used in the valuation are based on the results of the most recent actuarial experience study, which covered the five-year period ending June 30, 2011. The experience study report is dated August 20, 2012.

Paragraph 78

(a): Discount rate (SEIR). The discount rate used to measure the TPL at June 30, 2015 was 8.00 percent. There was no change in the SEIR since the Prior Measurement Date.

(b): Projected cash flows. The projection of cash flows used to determine the discount rate assumed that plan contributions from members, school districts and the State of Nebraska will be made at the current contribution rates as set in state statute:

- a. Employee contribution rate: 9.78% of monthly salary.
- b. School Districts contribution rate: 101% of the member contribution rate or 9.88% of monthly salary.
- c. State contribution rate: 2.00% of monthly estimated payroll for the plan year.
- d. Administrative expenses in the prior year were projected forward with price inflation as an estimate for administrative expenses in the current and future years. The portion of expenses in future years allocated to the current members was based on the proportionate share of covered payroll in each year for the remainder of the existing members to the total covered payroll for all members.

Based on those assumptions, the Plan's FNP was projected to be available to make all projected future benefit payments of current Plan members. Therefore, the long-term expected rate of return on Plan investments of 8.00% was applied to all periods of projected benefit payments to determine the TPL.

The FNP projections are based upon the Plan's financial status on the Measurement Date, the indicated set of methods and assumptions, and the requirements of GASB 68. As such, the FNP projections are not reflective of the cash flows and asset accumulations that would occur on an ongoing plan basis, reflecting the impact of future members. Therefore, the results of this test do

not necessarily indicate whether or not the fund will actually run out of money, the financial condition of the Plan, or the Plan's ability to make benefit payments in future years.

(c): Long-term rate of return. The long-term expected rate of return on plan assets is reviewed as part of regular experience studies prepared periodically. The most recent analysis was performed and results were provided on August 20, 2012 by the prior actuary, Buck Consultants. Generally, several factors are considered in evaluating the long-term rate of return assumption including long-term historical data, estimates inherent in current market data, and as analysis in which best-estimate ranges of expected future real rates of return (expected returns, net of investment expense and inflation), along with estimates of variability and correlations for each asset class, were developed by the Plan's investment consultant. These ranges were combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and then adding expected inflation. The capital market assumptions developed by the investment consultant may cover a shorter investment horizon and may not be useful in setting the long-term rate of return for funding pension plans which covers a longer timeframe. The assumption is intended to be a long-term assumption (30 to 50 years) and is not expected to change absent a significant change in the asset allocation, a change in the long-term inflation assumption, or a fundamental change in the market that alters expected returns in future years.

(d): Municipal bond rate. A municipal bond rate was not used in determining the discount rate. If it were required, the rate would be 3.82% on the Measurement Date.

(e): Period of projected benefit payments. Projected future benefit payments for all current plan members were projected through 2114.

(f): Assumed asset allocation. The target asset allocation and best estimates of geometric real rates of return for each major asset class, as of the first quarter of 2016, as provided by the Plan's investment consultant, Aon Hewitt Investment Consulting, Inc., are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return*
U.S. Stocks	29.0%	4.4%
Non-U.S. Stocks	13.5%	5.2%
Global Stocks	15.0%	4.8%
Fixed Income	30.0%	2.1%
Real Estate	7.5%	4.4%
Private Equity	<u>5.0%</u>	6.7%
Total	100.0%	

*Geometric mean, net of investment expenses

(g): Sensitivity analysis. This paragraph requires disclosure of the sensitivity of the NPL to changes in the discount rate. The following presents the NPL of the Plan, calculated using the discount rate of 8.00 percent, as well as the Plan's NPL calculated using a discount rate that is 1-percentage-point lower (7.00 percent) or 1-percentage-point higher (9.00 percent) than the current rate.

	1% Decrease (7.00%)	Current Discount Rate (8.00%)	1% Increase (9.00%)
Net Pension Liability/(Asset)	\$2,472,857,887	\$1,089,095,737	(\$61,603,947)

Paragraph 79: The Plan's financial statements were prepared on the accrual basis of accounting. Under this method, revenues are recorded when earned and expenses are recorded when a liability is incurred. Employee and employer contributions are recognized in the period in which employee services are performed. Benefits and refunds are recognized when due and payable in accordance with the terms of the Plan.

Investments as reported in the financial statements include long-term investments. Law or legal instruments may restrict these investments. All investments are stated at fair value, based on quoted market prices. For investments where no readily ascertainable fair value exists, management has received an estimate of fair

value from the investment fund manager based, in part, on real estate appraisals. The State Treasurer is the custodian of all funds; however, investment of funds is under the responsibility of the Nebraska Investment Council.

There have been no changes since the Measurement Date that would materially alter the Plan's financial report.

This information can be found in the published financials online at:

<http://npers.ne.gov/SelfService/>. Go to 'Related Links' and click on 'Retirement Plan Audits'.

Paragraph 80:

(a)-(b): By statute, the state of Nebraska contributes to the School Retirement System. Therefore, a special funding situation exists and the appropriate information has been prepared. The detailed information for each participating employer and the state of Nebraska is provided in Appendix D of this report. Please note that the determination of proportionate share reflects a state contribution rate of 2% of expected covered payroll.

(c): The measurement date of the Collective NPL is June 30, 2015. The TPL as of June 30, 2015 was determined based on the annual actuarial funding valuation report prepared as of July 1, 2015.

(d): There were no changes in the actuarial assumptions since the Prior Measurement Date.

(e): There were no changes in the benefit terms since the Prior Measurement Date.

(f): Based on the available information, the Nebraska Public Employees Retirement System believes that there are no changes between the measurement date of the NPL (June 30, 2015) and the employer's reporting date (typically June 30, 2016) that are expected to have a significant effect on the NPL.

(g): Please see Section III for the development of the Collective PE. The proportionate share of the Collective PE for each participating employer is provided in Appendix D. Because the state of Nebraska is a non-employer contributing entity in a special funding situation, the employers participating in the Plan are to recognize their pension expense and then also recognize revenue equal to the proportion of their pension expense for which the State is responsible. These amounts are shown in Exhibit 3 in Appendix D. The comparable expense will be included by the state (as a non-employer governmental entity) in a manner similar to other aid to schools and not as part of its pension expense.

(h)(1)-(3): Since certain expense items are recognized over closed periods each year, the deferred portions of these items must be tracked annually. If the amounts serve to reduce PE they are labeled Deferred Inflows of Resources. If they will increase PE they are labeled Deferred Outflows of Resources. The recognition of these amounts is accomplished on a level dollar basis, with no interest included in the deferred amounts. Experience gains/losses and the impact of changes in actuarial assumptions, if any, are recognized over the average expected remaining service life of the active and inactive Plan members at the beginning of the measurement period. Investment gains and losses are recognized equally over a five-year period.

The following tables provide the amounts of the Collective Deferred Outflows of Resources and Collective Deferred Inflows of Resources as of the Measurement Date (June 30, 2015) for the Plan. Detail by participating employer is provided in Appendix D of this report.

Collective Deferred Outflows of Resources

* Restated to reflect merger of school districts.

(h)(4): Changes in the proportionate share are shown on Exhibit 3 in Appendix D. The determination of proportionate share is based on individual employer contribution information, provided by the Nebraska Public Employees Retirement System (see Exhibit 1 in Appendix D). There should be no difference between contributions actually made by the employer and the proportion of contributions required from the employer.

(h)(5): Employer contributions subsequent to the Measurement Date are considered Deferred Outflows of Resources. These amounts, if any, will be provided by each participating employer.

(i): The following table provides the Collective Deferred Outflows of Resources and Collective Deferred Inflows of Resources as of the Measurement Date (June 30, 2015) for the Plan that will be recognized in PE in future fiscal years. **These amounts do not reflect the deferred recognition of changes in proportionate share, recognition of actual contributions that differ from the proportionate share, or employer contributions subsequent to the Measurement Period.**

Appendix D contains the schedule, by participating employer, of the recognition of all amounts except for employer contributions subsequent to the Measurement Date.

Year Ending June 30:	Collective Deferred Outflows of Resources	Collective Deferred Inflows of Resources	Collective Net Deferred Outflows/(Inflows) of Resources
2017	\$79,003,548	\$209,441,603	(\$130,438,055)
2018	79,003,548	209,441,603	(130,438,055)
2019	79,003,548	209,441,603	(130,438,055)
2020	79,003,546	38,051,814	40,951,732
2021	0	9,894,227	(9,894,227)
Thereafter	0	0	0

(j): By statute, part of the ongoing funding of the Plan is provided by the state of Nebraska so a special funding situation exists. Each participating employer is to recognize their pension expense and also recognize revenue in an amount equal to the support provided by the state's contribution to the Plan. These amounts are shown in Exhibit 4 of Appendix D.

SECTION V – REQUIRED SUPPLEMENTARY INFORMATION

There are several tables of Required Supplementary Information (RSI) that need to be included in the Plan's financial statements:

Paragraphs 81(a): Information under 81(a)(1)(a)-(b), which is determined as of the Measurement Date of the Collective NPL, is provided in Appendix D of this report.

Paragraphs 81(b): This information is to be determined as of the employer's most recent fiscal year-end. Therefore, each participating employer should have the information available to populate the Schedule of Employer Contributions.

Paragraph 82: Based on the available information, the Nebraska Public Employees Retirement System believes that there are no significant trends in the amounts reported in the schedules required by paragraph 81.

Changes of benefit and funding terms: The following changes to the plan provisions were made by the Nebraska Legislature and reflected in the valuation performed as of July 1 listed below:

2015: None

2014: None

Changes in actuarial assumptions:

7/1/2015 valuation: None

7/1/2014 valuation: None

Paragraphs 92-95: The State of Nebraska contributes a fixed 2.00% of estimated covered payroll to the School Retirement System of the Nebraska Public Employees Retirement System, thereby creating a special funding situation. The allocation of the state's proportionate share is the dollar amount of the state's contribution for the year divided by the total non-member contributions and is reflected in the Final Employer Allocated Percentage column on Exhibit 1 of Appendix D. Exhibit 2 in Appendix D shows the corresponding proportion of NPL which is to be reported by the State as well as the amount to be reported by each participating employer.

APPENDIX A

ADDITIONAL INFORMATION

SCHEDULE OF CHANGES IN THE NET PENSION LIABILITY

Fiscal Year Ended June 30

	Total Pension Liability (a)	Plan Fiduciary Net Position (b)	Net Pension Liability (a) – (b)
Balances at June 30, 2014	\$10,411,475,074	\$9,439,223,083	\$972,251,991
Changes for the year:			
Service Cost at end of year	213,938,291		213,938,291
Interest on TPL	813,291,551		813,291,551
Benefit term changes	0		0
Differences between expected and actual experience	(174,798,032)		(174,798,032)
Assumption changes	0		0

APPENDIX B

SUMMARY OF PLAN PROVISIONS

Member	Any person employed by a public school 20 or more hours per week shall be a member of the system. Employees at the date of establishment could have elected not to participate, and those covered under another system do not participate. The Tier Two benefit structure covers members joining the System on or after July 1, 2013.
Participation Date	Date of becoming a member.
Definitions	
Final average earnings	The average of the three highest twelve month periods of service during the period ending on the earlier of the participant's termination date or retirement date. For employees who become a member on or after July 1, 1996, earnings will be capped at the maximum earning defined in Code 401(a) (17). For Tier Two members, it is the average of the five highest twelve month periods of service.
Fiscal year	Twelve month period ending June 30.
Contributions	Members contribute 9.78% of pay. Such contributions are credited with interest based on the 1-year Treasury yield curve on July 1 of each year, as determined by State Statutes. The School Districts contribute at a rate equal to 101% of the members' rate. The State contributes 2% of pay, effective July 1, 2014 (previously 1%).
Monthly pension benefit	The greater of (1) or (2). (1) Amount: A monthly benefit equal to the sum of: (a) A savings annuity which is the actuarial equivalent of the member's accumulated contributions, and (b) A service annuity equal to \$3.50 per year of service. (2) Amount: Members employed by a class I, II, III, IV, or VI School District may receive a formula annuity. The formula annuity is a monthly amount equal to the product of 2.00% of final average earnings times total years of service for those members who are employed on or after July 1, 2001.

To receive this benefit, retirement must occur after meeting the Rule of 85 requirements (minimum age 55) or attaining age 65.

An automatic annual cost-of-living adjustment (COLA) equal to the change in the CPI-W index, with a maximum increase of 2.5% in any one year is provided for current and future retirees. Also provided is a minimum floor benefit equal to 75% of the purchasing power of the original benefit. For Tier Two members, whom are hired on or after July 1, 2013, an automatic cost-of-living adjustment (COLA) equal to the change in the CPI-W index, not to exceed 1.0% in any one year. No purchasing power COLA applies.

Normal Retirement Date (NRD)	First of month coinciding with or next following the attainment of age 65 and one-half year of service.
------------------------------	---

Service	Length of service includes all service as a school employee for which contributions have been made. This service only includes years for which the member was employed on at least a half-time basis, and includes declared emergency service in the armed forces, provided certain conditions are met. Special provisions allow credit for service prior to 1945 and for up to ten years of service in another State upon payment of the actuarial cost of the additional benefit granted.
---------	---

Pensionable pay	Gross earnings subject to contributions.
-----------------	--

Eligibility for Benefits

Deferred vested	Termination for reasons other than death or disability retirement after completing five years of service.
-----------------	---

Disability retirement	Retirement by reason of disability.
-----------------------	-------------------------------------

Early retirement	Retirement before NRD and on or after both attaining age 60 and completing five years of service, or attaining 35 years of service regardless of age, or attaining age 55 and age plus service equals at least 85 (Rule of 85).
------------------	---

Normal retirement	Retire on NRD.
-------------------	----------------

Postponed retirement	Retire after NRD.
----------------------	-------------------

Pre-retirement spouse benefit	Death prior to retirement.
-------------------------------	----------------------------

Monthly Benefits Payable

Normal retirement	Monthly pension benefit determined as of NRD.
-------------------	---

Early retirement	Monthly pension benefit determined as of early retirement date, reduced by 3% for each year that commencement of payment precedes age 65 (members must be age 60 with five years of service). Unreduced benefits are available to members who have attained age 55 and whose age plus service is greater than or equal to 85. Benefits payable upon retirement prior to age 60 (based on the 35 year service rule) are actuarially reduced from age 65. The service annuity is a life annuity actuarially reduced before age 65 using 8% interest and the 1994 Group annuity Mortality Table, 25% male, 75% female.
Postponed retirement	Monthly pension benefit determined as of actual retirement date.
Termination with deferred vested benefit	Monthly pension benefit determined as of termination date, reduced by 3% for each year that commencement of payment precedes age 65 (Early Commencement requires attainment of age 60).
Disability retirement	Monthly pension benefit determined as of disability retirement date.
Death with pre-retirement benefits	Survivor portion of 100% Joint and Survivor Annuity paid to spouse assuming retirement by member at death if the member is age 65 or has 20 years of service at death. If the member has met the 5-year vesting service requirement, has less than 20 years of service and is under age 65, the spouse may choose between the following two options: (1) a lump sum equal to the member's contributions with interest plus 101% of the member's contributions with interest, and (2) an annuity which equals the survivor portion of the 100% Joint and Survivor value of the member's accrued benefit, payable immediately, reduced for commencement before age 65 and the 100% joint and survivor form of payment.
Forms of payment	Pre-retirement death benefits are payable only as described above. Monthly pension benefits are paid under the form of payment elected by the retiree at retirement. Payment forms include: life annuity, 5- year certain and life annuity, 100% joint and survivor annuity (spouse only), 10-year certain and life annuity, 15-year certain and life annuity, or a modified cash refund annuity. The normal form of payment for the formula annuity is a 5-year certain and life annuity.

Funding Arrangement

Pursuant to LB 407 enacted in 2002, the School Retirement Fund is created. Balances existing on June 30, 2002 in the School Employers Deposit Account, the School Employees Savings Account, the Service Annuity Account, the Annuity Reserve Account, and the School Employees Retirement System Reserve Fund (RSRF) shall be combined and transferred into the School Retirement Fund.

There are four funds established in the State Treasury, which receive monies and pay the expenses and benefits of the retirement system, as follows:

1. School Retirement Fund – receives required deposits of the employers, the State, and employees. Upon retirement, the fund pays all savings annuities, service annuities, and formula annuities.
2. Contingent Account – receives all interest, dividends, and miscellaneous income, pays all regular interest allocated to the other accounts or funds, and meets any deficiencies occurring in the other accounts or funds.
3. Expense Fund – pays all expenses connected with the operation and administration of the system, and receives annual contributions to cover anticipated expenses.
4. Omaha Service Annuity Fund – pays service annuity benefits to Omaha members.

State Appropriation

LB 700, passed in 1996, established a separate fund to provide for cost-of-living benefit adjustments to members ceasing employment on or after April 10, 1996. The COLA increases are 0.3% per year, beginning six years after retirement. This benefit is funded by State contributions. Beginning with the 1996/1997 fiscal year, the funding shall be 81.7873% of \$6,895,000 or \$5,639,235 annually, for each year through the 2010/2011 fiscal year. This appropriation is no longer applicable as of the July 1, 2012 valuation.

Benefits Reflected in Valuation

All benefits were valued, including future cost-of-living increases as provided for by LB 674 and LB 711.

Plan Provisions Effective after July 1, 2015

No future changes in plan provisions were recognized in determining the funded status or in determining the sufficiency of statutory contribution levels.

Changes in Plan Provisions Since the Prior Year

There have been no changes to plan provisions since the prior year.

APPENDIX C

STATEMENT OF ACTUARIAL ASSUMPTIONS

ACTUARIAL ASSUMPTIONS

Economic Assumptions

1. Long-Term Expected Rate of Return 8.00% per annum, compounded annually, net of expenses.
2. Price Inflation 3.25% per annum, compounded annually
3. Salary Increases Rates vary by service. Sample rates are as follows:

Rates by Service	
Years	Rate
<1	9.00%
1	8.50
5	6.96
10	5.68
15	5.21
20	4.95
25	4.74
30	4.57
35	4.32
40+	4.00

4. Payroll Growth 4.0% per annum
5. Investment on Employee Contributions 4.25% per annum compounded annually.
6. Increase in Compensation
And Benefit Limits 3.25% per annum on the 401(a)(17) compensation limit and
415 benefit limit

Demographic Assumptions

1. Mortality The mortality assumption includes an appropriate level of conservatism that reflects expected future mortality improvement.
 - a. Healthy lives - Active members 1994 Group Annuity Mortality Table, projected to 2015 using scale AA, set-back 1 year (55% of male rates for males, 40% of female rates for females)
 - b. Healthy lives – Retired members and beneficiaries 1994 Group Annuity Mortality Table, projected to 2015 using scale AA, set-back 1 year (sex distinct)
 - c. Disabled lives 1983 Railroad Retirement Board Disabled Annuitants Mortality set-back 1 year (unisex)

d. Healthy mortality rates and life expectancies are shown below at sample ages:

Sample Age	<u>Pre-retirement Mortality</u>			
	Mortality Rate		Life Expectancy (Years)	
	Males	Females	Males	Females
20	0.02%	0.01%	68.3	74.7
30	0.04	0.01	58.5	64.8
40	0.05	0.02	48.7	54.9
50	0.09	0.04	39.0	45.0
60	0.28	0.14	29.5	35.3
70	0.89	0.46	20.8	26.1

Sample Age	<u>Post-retirement Mortality</u>			
	Mortality Rate		Life Expectancy (Years)	
	Males	Females	Males	Females
50	0.16%	0.09%	33.4	36.4
60	0.51	0.35	24.1	26.9
70	1.62	1.14	16.0	18.4
80	4.43	3.05	9.2	11.0
90	12.55	9.82	4.5	5.4

e. Disabled mortality rates and life expectancies are shown below at sample ages:

Sample Age	Mortality Rate	Life Expectancy
30	1.02%	30.7
40	1.29	23.8
50	3.00	17.7
60	4.14	13.5
70	6.38	9.5
80	9.97	6.2

2. Retirement

Rates vary by age and eligibility for benefits.
Rates are as follows:

Retirement Rates When Eligible for Unreduced Benefits	
Age	Rate
55	25%
56	20
57	20
58	20
59	20
60	25
61	25
62	30
63	25
64	25
65	30
66	25
67	20
68	20
69	20
70	20
71	20
72	20
73	20
74	25
75	25
76	25
77	25
78	35
79	35
80	100

Retirement Rates When Eligible for Reduced Benefits	
Age	Rate
60	10%
61	12
62	15
63	12
64	18

3. Termination

Rates vary by service.
Sample rates are as follows:

Rates by Service		
Years	Male	Female
<1	27.5%	31.7%
1	17.0	20.3
5	6.7	8.4
10	4.3	4.7
15	2.5	3.1
20+	2.0	2.0

4. Disability

Rates vary by age.
Sample rates are as follows:

Age	Rate
25	.00%
30	.00
35	.02
40	.02
45	.03
50	.04
55	.07
60	.09

Other Assumptions

1. Form of Payment

Five year certain and life annuity.

2. Marital Status

a. Percent married

85% married

b. Spouse's age

Females assumed to be two years younger than males.

3. Administrative Expense

Investment return is assumed to be net of expenses.

4. Commencement age for deferred vested benefit

Age 62

5. Cost of Living Adjustment

For members hired before January 1, 2013, it is 2.5% per annum, compounded annually and 3.25% per annum, compounded annually, after reaching 75% purchasing power floor benefit. For members hired on or after January 1, 2013, it is 1.0% per annum, compounded annually, and there is no floor for the purchasing power of the benefit.

6. State Contribution

State contributions for the current plan year are assumed to be contributed in a lump sum on the July 1 following the plan year end. These amounts from the prior plan year are treated as a contribution receivable on the plan's financial statements.

Changes in Assumptions since the Prior Year

There were no changes.

TECHNICAL VALUATION PROCEDURES

Data Procedures

Salaries for first year members are annualized by using the client's Calculated Salary field. For continuing active members, the Accumulated Salary field is used.

Other Valuation Procedures

Salary increases are assumed to apply to annual amounts.

Decrement rates are assumed to occur mid-year, except that immediate retirement is assumed for those who are at or above the age at which retirement rates are 100%. Standard adjustments are made for multiple decrements.

No actuarial liability is included for participants who terminated without being vested prior to the valuation date, except those due a refund of contributions.

Future monthly benefit amounts are not calculated or available for deferred vested members. The benefit liability for deferred vested members was calculated by loading the accumulated member contribution balances for deferred vested members by 100% to estimate the value of deferred benefit payments.

APPENDIX D

DETAILED INFORMATION FOR EMPLOYERS

Exhibit 1

Nebraska Public Employees Retirement System School Retirement System Schedule of Allocated Proportion by Employer For the Years Ended 6/30/2014 and 6/30/2015

Exhibit 2

Nebraska Public Employees Retirement System School Retirement System Schedule of Net Pension Liability (NPL) Measurement Date: 6/30/2015; Fiscal Year End 6/30/2015

*Assumes no difference between actual employer contributions and the employer's proportionate share of total contributions because the proportionate share is based on the actual employer contributions, except for the State, which contributes a flat percentage. In addition, it is the employer's responsibility to adjust these numbers for any employer contributions subsequent to the Measurement Date, which are to be reported as a Deferred Outflow of Resources.

Entity	6/30/14 NPL			6/30/15 NPL			NPL Sensitivities at 6/30/15

Deferred Outflows for contributions made after 6/30/15 are not reflected. Please consult GASB 68, Paragraph 89.

Exhibit 2

Nebraska Public Employees Retirement System School Retirement System Schedule of Net Pension Liability (NPL) Measurement Date: 6/30/2015; Fiscal Year End 6/30/2015

*Assumes no difference between actual employer contributions and the employer's proportionate share of total contributions because the proportionate share is based on the actual employer contributions, except for the State, which contributes a flat percentage. In addition, it is the employer's responsibility to adjust these numbers for any employer contributions subsequent to the Measurement Date, which are to be reported as a Deferred Outflow of Resources.

Entity	6/30/14 NPL			6/30/15 NPL			NPL Sensitivities at 6/30/15		
	Collective NPL	Portion of NPL attributable to Non-employer	Total	Collective NPL	Portion of NPL attributable to Non-employer	Total	1% Decrease (7.00%)	Current Discount Rate (8.00%)	1% Increase (9.00%)

Deferred Outflows for contributions made after 6/30/15 are not reflected. Please consult GASB 68, Paragraph 89.

Exhibit 3

Nebraska Public Employees Retirement System School Retirement System Schedule of Deferred Resources Measurement Date: 6/30/2015; Fiscal Year End 6/30/2015

*Assumes no difference between actual employer contributions and the employer's proportionate share of total contributions because the proportionate share is based on the actual employer contributions, except for the State, which contributes a flat percentage. In addition, it is the employer's responsibility to adjust these numbers for any employer contributions subsequent to the Measurement Date, which are to be reported as a Deferred Outflow of Resources.

		Deferred Outflows of Resources					Deferred Inflows of Resources				
		Net Difference Between Projected and Actual Earnings		Total Deferred			Net Difference Between Projected and Actual Earnings		Total Deferred		
		Differences Between Expected and Actual Experience	on Pension Plan Investments	Changes of Assumptions	Changes in Proportion*	Outflows of Resources	Differences Between Expected and Actual Experience	on Pension Plan Investments	Changes of Assumptions	Changes in Proportion*	Inflows of Resources

Deferred Outflows for contributions made after 6/30/15 are not reflected. Please consult GASB 68, Paragraph 89.

Exhibit 3

Nebraska Public Employees Retirement System School Retirement System Schedule of Deferred Resources Measurement Date: 6/30/2015; Fiscal Year End 6/30/2015

*Assumes no difference between actual employer contributions and the employer's proportionate share of total contributions because the proportionate share is based on the actual employer contributions, except for the State, which contributes a flat percentage. In addition, it is the employer's responsibility to adjust these numbers for any employer contributions subsequent to the Measurement Date, which are to be reported as a Deferred Outflow of Resources.

		Deferred Outflows of Resources					Deferred Inflows of Resources
