Independent Auditors' Report

The Board of Trustees
Teachers Retirement System of Georgia:

We have audited the accompanying schedule of employer and nonemployer allocations of the Teachers Retirement System of Georgia (the System), as of and for the year ended June 30, 2016, and the related notes. We have also audited the total for all entities of the columns titled net pension liability, total deferred outflows of resources, total deferred inflows of resources, and total employer pension expense excluding that attributable to employer-paid member contributions (specified column totals) included in the accompanying schedule of pension amounts by employer and nonemployer of the System as of and for the year ended June 30, 2016, and the related notes.

Management's Responsibility for the Schedules

Management is responsible for the preparation and fair presentation of these schedules in accordance with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the schedules that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on the schedule of employer and nonemployer allocations and the specified column totals included in the schedule of pension amounts by employer and nonemployer based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the schedule of employer and nonemployer allocations and specified column totals included in the schedule of pension amounts by employer and nonemployer are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the schedule of employer and nonemployer allocations and specified column totals included in the schedule of pension amounts by employer and nonemployer. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the schedule of employer and nonemployer allocations and specified column totals included in the schedule of pension amounts by employer and nonemployer, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the schedule of employer and nonemployer allocations and specified column totals included in the schedule of pension amounts by employer and nonemployer in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the schedule of employer and nonemployer allocations and specified column totals included in the schedule of pension amounts by employer and nonemployer.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the schedules referred to above presents fairly, in all material respects, the employer and nonemployer allocations and net pension liability, total deferred outflows of resources, total deferred inflows of resources and total employer pension expense excluding that attributable to employer-paid member contributions of the System as of and for the year ended June 30, 2016 in accordance with U.S. generally accepted accounting principles.

Report on Summarized Comparative Information

We have previously audited the System's 2015 schedule of employer and nonemployer allocations, and we expressed an unmodified audit opinion on the schedule in our report dated April 29, 2016. In our opinion, the summarized comparative information presented herein as of and for the year ended June 30, 2015 is consistent in all material respects, with the audited schedule from which it has been derived.

Other Matter

We have audited, in accordance with auditing standards generally accepted in the United States of America, the financial statements of the System as of and for the year ended June 30, 2016, and our report thereon, dated September 30, 2016, expressed an unmodified opinion on those financial statements.

Supplementary and Other Information

The schedule of employer allocations of special funding amounts and schedule of special funding amounts by employer have not been subject to the auditing procedures applied in the audit of the schedule of employer and nonemployer allocations and schedule of pension amounts by employer and nonemployer and accordingly, we do not express an opinion or provide any assurance on them.

Restriction on Use

Our report is intended solely for the information and use of System management, the Board of Trustees, the System employers, the State of Georgia, and their auditors and is not intended to be and should not be used by anyone other than these specified parties.

TEACHERS RETIREMENT SYSTEM OF GEORGIA

Notes to Schedule of Employer and Nonemployer Allocations and Schedule of Pension Amounts by Employer and Nonemployer

June 30, 2016

(1) Plan Description

The Teachers Retirement System of Georgia (the System) was created in 1943 by an act of the Georgia Legislature (the Act) to provide retirement benefits for teachers who qualify under the Act. The System administers a cost-sharing, multiple-employer defined benefit pension plan as defined in Governmental Accounting Standards Board (GASB) Statement No. 67, *Financial Reporting for Pension Plans*.

The System provides service retirement, disability retirement, and survivor's benefits. Title 47 of the *Official Code of Georgia Annotated (O.C.G.A.)* assigns the authority to establish and amend the provisions of the System to the State Legislature. A member is eligible for normal service retirement after 30 years of creditable service, regardless of age, or after 10 years of service and attainment of age 60. A member is eligible for early retirement after 25 years of creditable service.

Normal retirement (pension) benefits paid to members are equal to 2% of the average of the member's two highest paid consecutive years of service, multiplied by the number of years of creditable service up to 40 years. Early retirement benefits are reduced by the lesser of one-twelfth of 7% for each month the member is below age 60, or by 7% for each year or fraction thereof by which the member has less than 30 years of service. It is also assumed that certain cost-of-living adjustments, based on the Consumer Price Index, may be made in future years. Retirement benefits are payable monthly for life. A member may elect to receive a partial lump-sum distribution in addition to a reduced monthly retirement benefit. Options are available for distribution of the member's monthly pension, at a reduced rate, to a designated beneficiary on the member's death.

(2) Basis of Presentation

The Schedule of Employer and Nonemployer Allocations and Schedule of Pension Amounts by Employer and Nonemployer (collectively, the Schedules) present amounts that are elements of the financial statements of the System, its participating employers, or the State of Georgia as a nonemployer entity. Accordingly, they do not purport to be a complete presentation of the financial position or changes in financial position of the System, its participating employers, or the State of Georgia. The amounts presented in the Schedules are prepared in accordance with U.S. generally accepted accounting principles. Such preparation requires management of the System to make a number of estimates and assumptions relating to the reported amounts. Due to the inherent nature of these estimates, actual results could differ from those estimates.

(3) Allocation Methodology

GASB Statement No. 68, *Accounting and Financial Reporting for Pensions*, requires participating employers and nonemployers in the System to recognize their proportionate share of the collective net pension liability, collective deferred outflows of resources, collective deferred inflows of resources, and collective pension expense. The employer allocation percentages presented in the Schedule of Employer and Nonemployer Allocations and applied to amounts presented in the Schedule of Pension Amounts by Employer and Nonemployer are based on the ratio of each employer's and nonemployer's contribution to the System total employer and nonemployer contributions during the measurement period July 1, 2015 through June 30, 2016. Contributions from the employers and nonemployer contributing entities are recognized when due, based on statutory requirements.

TEACHERS RETIREMENT SYSTEM OF GEORGIA

Notes to Schedule of Employer and Nonemployer Allocations and Schedule of Pension Amounts by Employer and Nonemployer

June 30, 2016

A reconciliation of total contributions presented in the schedule of employer and nonemployer allocations to those reported in the System's statement of changes in fiduciary net position for the year ended June 30, 2016 is as follows (amounts in thousands):

Total current year employer and nonemployer contributions per schedule of employer and nonemployer allocations	\$ 1,565,276
Prior year contribution adjustments	1,337
Prior service purchases	11,545
State revenue appropriations	267
Transfers from other retirement systems, net	2,276
Miscellaneous	<u>(169)</u>
Total employer and nonemployer contributions per audited financial statements	<u>\$ 1,580,532</u>

(4) Collective Net Pension Liability

The components of the collective net pension liability of the participating employers and nonemployer at June 30, 2016 were as follows (amounts in thousands):

Total pension liability	\$ 86,183,526
Plan fiduciary net position	<u>65,552,411</u>
Employers' and nonemployer's net pension liability	<u>\$ 20,631,115</u>

Actuarial Assumptions

The collective total pension liability for the June 30, 2016 measurement date was determined by an actuarial valuation as of June 30, 2015, with update procedures used to roll forward the total pension liability to June 30, 2016. The roll forward calculation adds the annual normal cost (also called service cost), subtracts the actual benefit payments and refunds for the plan year, and then applies the expected investment rate of return for the year. This actuarial valuation used the following key actuarial assumptions:

Inflation	2.75%
Salary increases	3.75 – 9.00%, including inflation
Investment rate of return	7.5%, net of pension plan investment expense, including inflation
Post-retirement benefit increases	1.50% semi-annually

Post-retirement mortality rates were based on the RP-2000 White Collar Mortality Table with future mortality improvement projected to 2025 with the Society of Actuaries' projection scale BB (set forward one

TEACHERS RETIREMENT SYSTEM OF GEORGIA

Notes to Schedule of Employer and Nonemployer Allocations and Schedule of Pension Amounts by Employer and Nonemployer

June 30, 2016

year for males) for service retirements and dependent beneficiaries. The RP-2000 Disabled Mortality Table with future mortality improvement projected to 2025 with Society of Actuaries' projection scale BB (set forward two years for males and four years for females) was used for death after disability retirement. Rates of mortality in active service were based on the RP-2000 Employee Mortality Table projected to 2025 with projection scale BB.

The actuarial assumptions used in the June 30, 2015 valuation were based on the results of an actuarial experience study for the period July 1, 2009 – June 30, 2014.

The long-term expected rate of return on pension plan investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected nominal returns, net of pension plan investment expense and the assumed rate of inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset class	Target allocation	Long-term expected real rate of return*
Fixed income	30.00 %	(0.50)%
Domestic large cap equities	39.80	9.00
Domestic mid cap equities	3.70	12.00
Domestic small cap equities	1.50	13.50
International developed market equities	19.40	8.00
International emerging market equities	5.60	12.00
Total	100.00 %	

* Rates shown are net of the 2.75% assumed rate of inflation

Discount Rate

The discount rate used to measure the collective total pension liability was 7.50%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that employer and nonemployer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the System's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

TEACHERS RETIREMENT SYSTEM OF GEORGIA

Notes to Schedule of Employer and Nonemployer Allocations and Schedule of Pension Amounts by Employer and Nonemployer

June 30, 2016

Sensitivity of the Collective Net Pension Liability to Changes in the Discount Rate

The following presents the collective net pension liability calculated using a discount rate of 7.50%, as well as what the collective net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.50%) or 1-percentage-point higher (8.50%) than the current rate at June 30, 2016 (amounts in thousands):

	1% Decrease (6.50%)	Current discount rate (7.50%)	1% Increase (8.50%)
Collective net pension liability	\$ 32,112,585	20,631,115	11,178,017

(5) Special Funding Situation

Pursuant to O.C.G.A. §47-3-63, the employer contributions for certain full-time public school support personnel are funded on behalf of the employers by the State of Georgia. These employers are considered to be in a special funding situation as defined by GASB Statement No. 68. Since the employers do not contribute directly to the System, there is no net pension liability or deferred outflows or deferred inflows to report in the financial statements of the employers. However, the notes to the financial statements must disclose the portion of the nonemployer contributing entities' total proportionate share of the collective net pension liability that is associated with the employer. In addition, each employer must recognize the pension expense associated with the employer as well as revenue in an amount equal to the nonemployer contributing entities' total proportionate share of the collective pension expense associated with the employer. The schedule of special funding amounts by employer presented as supplemental information shows the amounts associated with each employer under this special funding situation.

TEACHERS RETIREMENT SYSTEM OF GEORGIA

Notes to Schedule of Employer and Nonemployer Allocations and Schedule of Pension Amounts by Employer and Nonemployer

June 30, 2016

(6) Collective Deferred Outflows of Resources and Deferred Inflows of Resources

The following presents a summary of changes in the collective deferred outflows of resources and deferred inflows of resources (excluding employer and nonemployer specific amounts) for the year ended June 30, 2016 (amounts in thousands):

	Year of deferral	Amortization period	Beginning of year balance	Additions	Deductions	End of year balance
Deferred outflows of resources:						
Difference between expected and actual experience	2016	5.2 years	\$ —	380,526	73,178	307,348
Difference between expected and actual assumptions	2016	5.2 years	—	662,047	127,317	534,730
Net difference between projected and actual earnings on pension plan investments	2014	5.0 years	3,303,277	(6,606,554)	(1,101,092)	(2,202,185)
	2015	5.0 years	(2,019,116)	4,038,232	504,779	1,514,337
	2016	5.0 years	—	4,122,211	824,442	3,297,769
Subtotal			<u>1,284,161</u>	<u>1,553,889</u>	<u>228,129</u>	<u>2,609,921</u>
Total deferred outflows of resources			<u>\$ 1,284,161</u>	<u>2,596,462</u>	<u>428,624</u>	<u>3,451,999</u>
Deferred inflows of resources:						
Difference between expected and actual experience	2015	5.2 years	\$ 133,903	—	31,882	102,021
Total deferred inflows of resources			<u>\$ 133,903</u>	<u>—</u>	<u>31,882</u>	<u>102,021</u>

Amounts reported as deferred outflows of resources and deferred inflows of related to pensions will be recognized in pension expense as follows (amounts in thousands):

Year ended June 30:	
2017	\$ 396,742
2018	396,741
2019	1,497,834
2020	1,018,563
2021	<u>40,098</u>
Total	<u>\$ 3,349,978</u>

TEACHERS RETIREMENT SYSTEM OF GEORGIA

Notes to Schedule of Employer and Nonemployer Allocations and Schedule of Pension Amounts by Employer and Nonemployer

June 30, 2016

Changes in Proportion

The previous amounts do not include employer and nonemployer specific deferred outflows of resources and deferred inflows of resources related to changes in proportion. These amounts should be recognized (amortized) by each employer and nonemployer over the average of the expected remaining service lives of all plan members, which is 5.2 years for both 2016 and 2015 amounts.

(7) Collective Pension Expense

The components of collective pension expense for the year ended June 30, 2016 (excluding that attributable to employer-paid member contribution) are as follows (amounts in thousands):

Service cost	\$	1,435,810
Interest on the total pension liability and net cash flow		5,990,178
Member contributions		(685,626)
Projected earnings on plan investments		(4,932,785)
Administrative expense		15,279
Other		(15,256)
Recognition (amortization) of deferred inflows and outflows of resources:		
Difference between expected and actual experience		41,296
Difference between expected and actual assumptions		127,317
Difference between projected and actual earnings on plan investments		<u>228,129</u>
Collective pension expense	\$	<u><u>2,204,342</u></u>
