REPORT OF INDEPENDENT PUBLIC ACCOUNTANTS

To the Board of Trustees
Maryland State Retirement and Pension System

We have audited the accompanying schedule of employer allocations of the Maryland State Retirement and Pension System (the System) for the years ended June 30, 2019 and 2018. We have also audited the total for all entities of the columns titled net pension liability, total deferred outflows of resources, and total deferred inflows of resources (specified column totals) included in the accompanying schedule of pension amounts by employer of the System for the year ended June 30, 2019, and the related notes.

Management's Responsibility for the Schedules

Management is responsible for the preparation and fair presentation of these schedules in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal controls relevant to the preparation and fair presentation of the schedules that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the schedule of employer allocations and the specified column totals included in the schedule of pension amounts by employer based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the schedule of employer allocations and specified column totals included in the schedule of pension amounts by employer are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the schedule of employer allocations and specified column totals included in the schedule of pension amounts by employer. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the schedule of employer allocations and specified column totals included in the schedule of pension amounts by employer, whether due to fraud or error. In making those risk assessments, the auditor considers internal controls relevant to the entity's preparation and fair presentation of the schedule of employer allocations and specified column totals included in the schedule of pension amounts by employer in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal controls. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the schedule of employer allocations and specified column totals included in the schedule of pension amounts by employer.

SB & COMPANY, LLC
KNOWLEDGE • QUALITY • CLIENT SERVICE

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the schedules referred to above present fairly, in all material respects, the employer allocations for the years ended June 30, 2019 and 2018, and net pension liability, total deferred outflows of resources, total deferred inflows of resources, and total change in pension liability factored for contributions for the total of all participating entities for the System for the year ended June 30, 2019, in accordance with accounting principles generally accepted in the United States of America.

Other Matter

We have audited, in accordance with auditing standards generally accepted in the United States of America, the financial statements of the System as of and for the year ended June 30, 2019, and our report thereon, dated December 4, 2019, expressed an unmodified opinion on those financial statements.

Restriction on Use

Our report is intended solely for the information and use of the System management, members of the Board of Trustees, the System plan employers and their auditors, and is not intended to be and should not be used by anyone other than these specified parties.

MARYLAND STATE AND RETIREMENT SYSTEM

Notes to the Schedule of Employer Allocations and Pension Amounts by Employer For the Years Ended June 30, 2019 and 2018

1. PLAN DESCRIPTION

Organization

The State Retirement Agency (the Agency) is the administrator of the Maryland State Retirement and Pension System (the System). The System was established by the State Personnel and Pensions Article of the Annotated Code of Maryland to provide retirement allowances and other benefits to State employees, teachers, police, judges, legislators, and employees of participating governmental units. Responsibility for the System's administration and operation is vested in a 15-member Board of Trustees.

The State of Maryland is the statutory guarantor for the payment of all pensions, annuities, retirement allowances, refunds, reserves, and other benefits of the System. The State is obligated to annually pay into the accumulation fund of each State system at least an amount that, when combined with the System's accumulation funds, is sufficient to provide benefits payable under each plan during that fiscal year. The System is accounted for as one defined benefit plan as defined in Governmental Accounting Standards Board (GASB) Statement No. 67 *Financial Reporting for Pension Plans*. Additionally, the System is fiscally dependent on the State by virtue of the legislative and executive controls exercised with respect to its operations, policies, and administrative budget. Accordingly, the System is included in the State's reporting entity and disclosed in its financial statements as a pension trust fund.

The System is comprised of the Teachers' Retirement and Pension Systems, Employees' Retirement and Pension Systems, State Police Retirement System, Judges' Retirement System, and the Law Enforcement Officers' Pension System.

2. SUMMARY OF SIGNIFICANT ACCOUNTING AND REPORTING POLICIES

Basis of presentation and basis of accounting

1. Employers participating in the System's cost-sharing multiple-employer defined benefit plans are required to report pension information in their financial statements for fiscal periods beginning on or after June 15, 2014, in accordance with GASB Statement No. 68, *Accounting and Financial Reporting for Pensions. The Schedule of Employer Allocations and Schedule of Pension Amounts by Employer* (pension allocation schedules) provide employers with the required information for financial reporting.
2. The underlying financial information used to prepare the pension allocation schedules is based on the System's financial statements. The System's financial statements for all plans are prepared using the accrual basis of accounting and are prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) that apply to governmental accounting for fiduciary funds.

2. SUMMARY OF SIGNIFICANT ACCOUNTING AND REPORTING POLICIES (continued)

Basis of presentation and basis of accounting (continued)

3. Actual employer contributions billed to participating government units for the years ended June 30, 2019 and 2018, are used as the basis for determining each employer's proportionate share of the collective pension amounts reported in the Schedule of Employer Allocations. Because the State of Maryland contributed 100% of the actuarial determined contributions, there were no adjustments for the year ended June 30, 2019 and 2018.
4. The components of the calculation of the net pension liability of the defined benefit cost-sharing plans for participating employers and the State of Maryland as of June 30, 2019, calculated in accordance with GASB Statement No. 67, are shown in the following table.

	<u>2019</u>	<u>2018</u>
Total Pension Liability (A)	\$ 74,569,030,000	\$ 72,808,833,000
Plan Fiduciary Net Position (B)	<u>53,943,420,000</u>	<u>51,827,233,000</u>
Net Pension Liability (A-B)	<u>\$ 20,625,610,000</u>	<u>\$ 20,981,600,000</u>
Plan Fiduciary Net Position as a Percentage of the Total Pension Liability (B/A)	72.34%	71.18%

The net pension liability sensitivity to changes in the single discount rate, as of June 30, 2019, is as follows:

	<i>(Expressed in thousands)</i>		
<u>System</u>	<u>1% Decrease to 6.40%</u>	<u>Current Discount Rate 7.40%</u>	<u>1% Increase to 8.40%</u>
Total System Net Pension Liability	<u>\$ 29,853,506</u>	<u>\$ 20,625,610</u>	<u>\$ 12,939,936</u>

- a. Change in net pension liability factored for contributions is calculated as the change in the net pension liability plus employer contributions.
- b. Amounts reported on the pension allocation schedules may not precisely agree with financial statement amounts or actuarial valuations due to the number of decimal places used in allocating the collective pension amounts. Also, the number of decimal places used in the allocations varies by plan.
- c. The System has elected to not calculate and disclose changes in proportional share amounts for differences in contribution amounts between 2019 and 2018.

 - d. Employee Contributions
 - e. Projected Earnings on Plan Investments

3. ACTUARIAL METHODS AND ASSUMPTIONS

The total pension liability for each of the defined benefit cost-sharing plans was determined by an actuarial valuation as of June 30, 2019, using the entry age normal actuarial cost method. General inflation is assumed to be 2.65% and wage increases is assumed to be 3.15%. The discount rate and long-term expected rate of return on pension plan investments used in the determination of the total pension liability is 7.40%.

4. DEFERRED FINANCING INFLOWS AND OUTFLOWS

Deferred financing inflows and outflows are made up of changes in actuarial assumptions, differences in actual and expected experience, and net difference in the projected and actual investment earnings. The deferred outflows and the inflows related to non-investment activity are being amortized over the remaining service life ranging from 5.68 to 5.87 years. The net difference in investment earnings are being amortized over a closed five-year period for each of the years presented. The following table shows the deferred inflows and outflows of resources, by source, to be recognized in future pension expenses:

Deferred Outflows of Resources	Year of Deferral	Amortization Period	Beginning of Year Balance	Additions	Current Year Amortization	End of Year Balance
