Independent Auditors' Report

The Board of Trustees
Maine Public Employees Retirement System

We have audited the accompanying schedules of employer and non-employer entity allocations of the Maine Public Employees Retirement System State Employee and Teacher Plan and the schedule of employer allocations of the Maine Public Employees Retirement System PLD Consolidated Plan for the years ended June 30, 2015 and 2014 (collectively, the schedule of employer allocations), and the related notes to the schedules. We have also audited the total for all entities for each Plan of the columns titled *net pension liability*, *total deferred outflows of resources*, *total deferred inflows of resources*, and *total employer pension expense* (specified column totals) included in the accompanying schedules of pension amounts by employer of the Maine Public Employees Retirement System State Employee and Teacher Plan and the Maine Public Employees Retirement System PLD Consolidated Plan as of and for the year ended June 30, 2015 and net pension liability as of June 30, 2014, and the related notes to the schedules.

Management's Responsibility for the Schedules

Management is responsible for the preparation and fair presentation of these schedules for each Plan in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the schedules that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on the schedules of employer allocations for each Plan and the specified column totals included in the schedules of pension amounts by employer for each Plan based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the schedules of employer allocations for each Plan and the specified column totals included in the schedules of pension amounts by employer for each Plan are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the schedule of employer allocations and specified column totals included in the schedule of pension amounts by employer. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the schedule of employer allocations and specified column totals included in the schedule of pension amounts by employer, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the schedule of employer allocations and specified column totals included in the schedule of pension amounts by employer in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the schedule of employer allocations and specified column totals included in the schedule of pension amounts by employer.

The Board of Trustees
Maine Public Employees Retirement System

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the schedules referred to above present fairly, in all material respects, the employer allocations and net pension liability, total deferred outflows of resources, total deferred inflows of resources, and total employer pension expense for the total of all participating entities for the Maine Public Employees Retirement System State Employee and Teacher Plan and the Maine Public Employees Retirement System PLD Consolidated Plan as of and for the year ended June 30, 2015 and net pension liability for the year ended June 30, 2014, in accordance with accounting principles generally accepted in the United States of America.

Other Matter

We have audited, in accordance with auditing standards generally accepted in the United States of America, the financial statements of the Maine Public Employees Retirement System (MainePERS or the System) as of and for the years ended June 30, 2015 and 2014, and our reports thereon, dated October 30, 2015 and October 31, 2014, respectively, expressed an unmodified opinion on those financial statements.

Restriction on Use

Our report is intended solely for the information and use of Maine Public Employees Retirement System management, the Board of Trustees of the Maine Public Employees Retirement System, the Maine Public Employees Retirement System State Employee and Teacher Plan and the Maine Public Employees Retirement System PLD Consolidated Cost Sharing Plan employers and their auditors and is not intended to be and should not be used by anyone other than these specified parties.

⁽¹⁾ The total pension liability and pension related numbers for the State Employee and Teacher Plan are actuarially determined separately for the State Employee Portion and the Teacher Portion of the Plan.

⁽²⁾ The allocation basis used to distribute Net Pension Liability and related numbers is based on Unfunded Actuarial Liability (UAL) contributions to the Plan.

See accompanying notes

Maine Public Employees Retirement System
Schedule of Pension Amounts - State Employee and Teacher Plan - Teacher Portion⁽¹⁾
As of and for the Fiscal Year Ended June 30, 2015 with Net Pension Liability as of June 30, 2014

Deferred Outflows of Resources					Deferred Inflows of Resources					Pension Expense				
Employer	Employer Code	Net Pension Liability June 30, 2014	Net Pension Liability June 30, 2015	Difference Between Expected and Actual Experience	Net Difference Between Projected and Actual Investment Earnings on Pension Plan Investments	Changes of Assumptions	Changes in Proportionate Share of Contributions	Total Deferred Outflows of Resources	Differences Between Expected and Actual Experience	Net Difference Between Projected and Actual Investment Earnings on Pension Plan Investments	Changes of Assumptions	Proportionate Share of Plan Pension Expense	Net Amortization of Deferred Amounts from Changes in Proportion and Differences Between Employer Contributions and	Total Employer Pension Expense

MAINE PUBLIC EMPLOYEES RETIREMENT SYSTEM

NOTES TO SCHEDULES OF EMPLOYER ALLOCATIONS AND PENSION AMOUNTS BY EMPLOYER FOR STATE EMPLOYEE AND TEACHER, AND PLD CONSOLIDATED PLANS

June 30, 2015 and 2014

1. Description of the Plans

The State Employee and Teacher (SET) Plan is a multiple-employer cost sharing plan with a special funding situation. As of June 30, 2015 there were 231 employers, including the State of Maine, participating in the plan. The State of Maine is also a non-employer contributing entity in that the State pays the initial unfunded actuarial liability on behalf of teachers, while school districts contribute the normal cost, calculated actuarially, for their teacher members.

The Participating Local District (PLD) Consolidated Plan is a multiple-employer cost sharing plan. Eligible employers (districts) are defined in Maine statute. As of June 30, 2015 there were 289 employers in the plan.

Pension Benefits

Benefit terms are established in Maine statute; in the case of the PLD Consolidated Plan, an advisory group, also established by statute, reviews the terms of the plan and periodically makes recommendations to the Legislature to amend them. The System's retirement programs provide defined retirement benefits based on members' average final compensation and service credit earned as of retirement. Vesting (i.e., eligibility for benefits upon reaching qualification) occurs upon the earning of five years of service credit (effective October 1, 1999, the prior ten year requirement was reduced by legislative action to five years for State employees and teachers; separate legislation enacted the same reduced requirement for employees of PLDs). In some cases, vesting occurs on the earning of one year of service credit immediately preceding retirement at or after normal retirement age. Normal retirement age for State employees and teachers is age 60, 62 or 65. The normal retirement age is determined by whether a member had met certain creditable service requirements on specific dates, as established by statute. For PLD members, normal retirement age is 60 or 65. The monthly benefit of members who retire before normal retirement age by virtue of having at least 25 years of service credit is reduced by a statutorily prescribed factor for each year of age that a member is below her/his normal retirement age at retirement. The System also provides disability and death benefits which are established by statute for State employee and teacher members and by contract with other participating employers under applicable statutory provisions.

Upon termination of membership, members' accumulated employee contributions are refundable with interest, credited in accordance with statute. Withdrawal of accumulated contributions results in forfeiture of all benefits and membership rights. The annual rate of interest credited to members' accounts is set by the System's Board of Trustees and is currently 5.0%.

Member and Employer Contributions

Retirement benefits are funded by contributions from members and employers and by earnings on investments. Disability and death benefits are funded by employer normal cost contributions and by investment earnings. Member and employer contribution rates are each a percentage of applicable member compensation. Member contribution rates are defined by law or Board rule and depend on the terms of the plan under which a member is covered. Employer contribution rates are determined through actuarial valuations.

NOTES TO SCHEDULES OF EMPLOYER ALLOCATIONS AND PENSION AMOUNTS BY EMPLOYER FOR STATE EMPLOYEE AND TEACHER, AND PLD CONSOLIDATED PLANS

June 30, 2015 and 2014

2. Summary of Significant Accounting Policies

Revenue Recognition

Employer contributions to MainePERS are recognized as additions in the period when they become due pursuant to formal commitments or statutory requirements. Investment income is recognized when earned and investment expenses are recorded when incurred.

The Schedules of Employer Allocations for the State Employee and Teacher Plan are displayed separately for the two groups within the Plan, state employees being one group and teachers the second. This is to reflect the unique funding arrangement that currently exists within the Plan for teachers. Total employer contributions for the state employees group, adjusted for employer specific liability contributions, were used as the basis for allocation. For the teacher group, total employer and non-employer contributions were the basis for the allocation, adjusted to remove the normal cost contributions paid by local school districts on behalf of their employees. This leaves contributions toward the unfunded liability of the Plan as the basis of allocation. This method of allocation properly distributes the collective net pension liability between the State of Maine as the non-employer contributing entity and those districts contributing towards the unfunded liability of the plan using grant funding.

The Schedules of Employer Allocations for the PLD Consolidated Plan reflect current year employer contributions, adjusted to remove contributions related to employer specific liabilities to the Plans. For the PLD Plan, certain employers have individual un-pooled pension assets resulting from the closure of individual single employer plans upon joining the PLD Consolidated Plan. For these employers, current year contributions are adjusted to reflect the gross contributions due for service prior to applying an offset from these assets, if applicable. An offset occurs when an employer with un-pooled pension assets held by MainePERS chooses to use a portion of these assets to cover the cost of current contributions due.

The following table presents a reconciliation of employer contributions reported in MainePERS' Statement of Changes in Fiduciary Net Position to the employer contributions used to determine each employer's proportionate share of the collective pension amounts.

	<u>State</u>	<u>Teacher</u>	<u>Total SET Plan</u>	<u>PLD Plan</u>

June 30, 2015 and 2014

2. Summary of Significant Accounting Policies (Continued)

Benefits and Refunds

Pension benefits and contribution refunds are recognized as deductions when due and payable in accordance with the terms of the statutes.

Investments

Investments are reported at fair value. Debt and equity securities that are traded on recognized exchanges are valued at the last sales price and the current exchange rates on the reporting date. Other regularly traded securities, including derivatives, are valued by the System's custodian through a variety of external sources. Investments that do not have an established market are reported at estimated fair value. The fair value of shares in common collective trusts is based on unit values reported by the funds. The fair value of other investments, including private market partnerships, is based on third-party appraisals and valuations provided by the sponsor of the partnerships. Management reviews and approves all such appraisals and valuations prepared by other parties. Investment purchases and sales are recorded as of their trade date. Proceeds related to securities sold not yet purchased are carried as a liability and are adjusted to the fair value of the securities.

Assets of the defined benefit pension plans are pooled for investment purposes and are allocated to each plan based on each plan's net fiduciary position, as are investment expenses and administrative expenses.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make significant estimates and assumptions. These estimates affect the reported amounts of collective net pension liabilities as of the date of these schedules, actuarial information as of the actuarial information date, the changes in net position during the reporting period, and, when applicable, the disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from these estimates.

3. Collective Net Pension Liabilities

The collective net pension liability for the Plans, measured as of June 30, 2015 and 2014, is as follows:

	<u>State</u>	<u>Teacher</u>	<u>Total SET Plan</u>	<u>PLD Plan</u>
<u>2015</u>				
Collective total pension liability	\$ 4,407,549,888	\$ 8,208,737,166	\$ 12,616,287,054	\$ 2,720,936,009
Less: Plan net position	(3,383,477,940)	(6,858,619,082)	(10,242,097,022)	(2,401,889,308)
Collective net pension liability	\$ 1,024,071,948	\$ 1,350,118,084	\$ 2,374,190,032	\$ 319,046,701

Less: Plan net position	(3,437,637,906)	(6,899,978,021)	(10,337,615,927)	(2,455,776,671)
Collective net pension liability	\$ <u>902,212,908</u>	\$ <u>1,080,329,948</u>	\$ <u>1,982,542,856</u>	\$ <u>153,881,174</u>

4. Special Funding Situation – State Employee and Teacher Plan

The State of Maine participates in the State Employee and Teacher Plan as a non-employer contributing entity in that the state pays the unfunded liability associated with the teachers and the local teacher districts, as employers, pay the normal cost contributions as determined by the actuary.

5. Actuarial Methods and Assumptions

The collective total pension liability for the Plans was determined by an actuarial valuation as of June 30, 2015, using the following methods and assumptions, applied to all periods included in the measurement. These same methods and assumptions were used in the actuarial valuation as of June 30, 2014, except as noted.

Actuarial Cost Method

The Entry Age Normal actuarial funding method is used to determine costs. Under this funding method, the total employer contribution rate consists of two elements, the normal cost rate and the unfunded actuarial liability (UAL) rate.

The individual entry age normal method is used to determine liabilities. Under the individual entry age normal method, a normal cost rate is calculated for each employee. This rate is determined by taking the value, as of age at entry into the plan, of the member's projected future benefits, and dividing it by the value, also as of the member's entry age, of his expected future salary. The normal cost for each employee is the product of his pay and his normal cost rate. The normal cost for the group is the sum of the normal costs for all members.

Experience gains and losses, i.e., decreases or increases in liabilities and/or in assets when actual experience differs from the actuarial assumptions, affect the unfunded actuarial accrued liability.

MAINE PUBLIC EMPLOYEES RETIREMENT SYSTEM

NOTES TO SCHEDULES OF EMPLOYER ALLOCATIONS AND PENSION AMOUNTS BY EMPLOYER FOR STATE EMPLOYEE AND TEACHER, AND PLD CONSOLIDATED PLANS

June 30, 2015 and 2014

5. **Actuarial Methods and Assumptions (Continued)**

Asset Valuation Method

The actuarial valuation employs a technique for determining the actuarial value of assets which dampens the swing in the market value. The specific technique adopted in this valuation recognizes in a given year one-third of the investment return that is different from the actuarial assumption for investment return.

Amortization

The initial unfunded actuarial liability (IUAL) of the State Employee and Teacher Retirement Plan is amortized on a level percentage of payroll over the amortization period then in effect under statutory and constitutional requirements. All other gains, losses, and changes are amortized over ten-year periods beginning on the date as of which they occur.

The net pension liability of the PLD Consolidated Plan is amortized on a level percentage of payroll using a method where a separate twenty-year closed period is established annually for the gain or loss for that year.

For the actuarial valuation as of June 30, 2014, the net pension liability of the PLD Consolidated Plan was amortized on an open basis over a period of fifteen years.

Significant actuarial assumptions employed by the actuary for funding purposes as of June 30, 2015 and 2014 are as follows:

Investment Rate of Return – For the State Employee and Teacher Plan, 7.125% per annum for the years ended June 30, 2015 and 2014, compounded annually; for the PLD Plan, 7.125% per annum for the year ended June 30, 2015 and 7.25% per annum for the year ended June 30, 2014, compounded annually.

Annual Salary Increases, Merit and Inflation – State employees, 3.50% to 10.50% per year; Teachers, 3.50% to 13.50% per year; members of the consolidated plan for PLDs, 3.50% to 9.50% per year.

Mortality Rates – For active State employee members and non-disabled retirees of the State employee plan and participating local districts, the RP2000 Tables projected forward to 2015 using Scale AA are used; for active members and non-disabled retirees of the teachers' plan, the ages are set back two years; for all recipients of disability benefits, the Revenue Ruling 96-7 Disabled Mortality Table for Males and Females is used.

Cost of Living Benefit Increases – 2.55% per annum for the year ended June 30, 2015, and 2.55% for State employees and teachers for the year ended June 30, 2014, and 3.12% for participating local districts for the year ended June 30, 2014.

MAINE PUBLIC EMPLOYEES RETIREMENT SYSTEM

NOTES TO SCHEDULES OF EMPLOYER ALLOCATIONS AND PENSION AMOUNTS BY EMPLOYER FOR STATE EMPLOYEE AND TEACHER, AND PLD CONSOLIDATED PLANS

June 30, 2015 and 2014

5. Actuarial Methods and Assumptions (Continued)

The long-term expected rate of return on pension plan assets was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major class of assets. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of June 30, 2015 are summarized in the following table.

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
US Equities	20%	5.2%
Non-US Equities	20	5.5
Private Equity	10	7.6
Real Assets:		
Real Estate	10	3.7
Infrastructure	10	4.0
Hard Assets	5	4.8
Fixed Income	25	0.7

Discount Rate

The discount rate used to measure the collective total pension liability was 7.125% for 2015 for each of the Plans and 7.125% for 2014 for the State Employee and Teacher Plan and 7.25% for 2014 for the PLD Plan. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that employer and non-employer entity contributions will be made at contractually required rates, actuarially determined. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments to current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

The following table shows how the collective net pension liability/(asset) as of June 30, 2015 would change if the discount rate used was one percentage point lower or one percentage point higher than the current rate. The current rate is 7.125% for each of the Plans.

	<u>1% Decrease (6.125%)</u>	<u>Current Discount Rate (7.125%)</u>	<u>1% Increase (8.125%)</u>
State	\$1,519,338,048	\$1,024,071,948	\$ 605,984,727
Teacher	2,363,737,470	1,350,118,084	505,890,521
Total SET Plan	3,883,075,518	2,374,190,032	1,111,875,248
PLD Plan	635,635,545	319,046,701	18,900,921

MAINE PUBLIC EMPLOYEES RETIREMENT SYSTEM

NOTES TO SCHEDULES OF EMPLOYER ALLOCATIONS AND PENSION AMOUNTS BY EMPLOYER FOR STATE EMPLOYEE AND TEACHER, AND PLD CONSOLIDATED PLANS

June 30, 2015 and 2014

6. Changes in Net Pension Liability

Changes in net pension liability are recognized in pension expense for the year ended June 30, 2015 with the following exceptions.

Differences between Expected and Actual Experience

The difference between expected and actual experience with regard to economic or demographic factors were recognized in pension expense using a straight-line amortization method over a closed period equal to the average expected remaining service lives of active and inactive members in each plan. For 2015 and 2014, this was three years for the State Employee and Teacher Plan and four years for the PLD Consolidated Plan.

Differences between Projected and Actual Investment Earnings

Differences between projected and actual investment earnings were recognized in pension expense using a straight-line amortization method over a closed five-year period.

Changes in Assumptions

Differences due to changes in assumptions about future economic or demographic factors or other inputs were recognized in pension expense using a straight-line amortization method over a closed period equal to the average expected remaining service lives of active and inactive members in each plan. There were no changes in assumptions for the State Employee and Teachers Plan. For the PLD Plan, the discount rate was decreased from 7.25% to 7.125% and the cost of living benefit increase assumption was changed from 3.12% to 2.55%.

Changes in Proportion and Differences between Employer Contributions and Proportionate Share of Contributions

Differences resulting from a change in proportionate share of contributions and differences between total employer contributions and the employer's proportionate share of contributions were recognized in pension expense using a straight-line amortization method over a closed period equal to the average expected remaining service lives of active and inactive members in each plan. Differences between total employer contributions and the employer's proportionate share of contributions may arise when an employer has a contribution requirement for an employer specific liability.

7. Additional Financial and Actuarial Information

Additional financial and actuarial information with respect to the Plans can be found in the MainePERS' 2015 Comprehensive Annual Financial Report available online at www.maineopers.org or by contacting the System at (207) 512-3100.
