Independent Auditor's Report	1
Schedules of Employer Allocations and Pension Amounts by Employer for the PLD Consolidated Plan	3 – 21
Schedules of Employer Allocations and Pension Amounts by Employer for the State Employee and Teacher Plan – State Employee Portion	22 – 24
Schedules of Employer Allocations and Pension Amounts by Employer for the State Employee and Teacher Plan –Teacher Portion	25 – 41
Notes to Schedules	42 – 51

INDEPENDENT AUDITOR'S REPORT

Board of Trustees of
Maine Public Employees Retirement System

We have audited the accompanying schedule of employer allocations of the Maine Public Employees Retirement System PLD Consolidated Plan and the schedules of employer and non-employer entity allocations of the Maine Public Employees Retirement System State Employee and Teacher Plan – State Employee Portion and the Maine Public Employees Retirement System State Employee and Teacher Plan – Teacher Portion for the year ended June 30, 2016 (collectively, the schedules of employer allocations), and the related notes to the schedules. We have also audited the total for all entities for each Plan of the columns titled net pension liability, total deferred outflows of resources, total deferred inflows of resources, and total employer pension expense (collectively, the specified column totals) included in the accompanying schedules of pension amounts by employer of the Maine Public Employees Retirement System PLD Consolidated Plan, the Maine Public Employees Retirement System State Employee and Teacher Plan – State Employee Portion and the Maine Public Employees Retirement System State Employee and Teacher Plan – Teacher Portion as of and for the year ended June 30, 2016 (collectively, the schedules of pension amounts by employer), and the related notes to the schedules.

Management's Responsibility for the Schedules

Management is responsible for the preparation and fair presentation of these schedules for each Plan in accordance with U.S. generally accepted accounting principles; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of the schedules that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on the schedules of employer allocations for each Plan and the specified column totals included in the schedules of pension amounts by employer for each Plan based on our audit. We conducted our audit in accordance with U.S. generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the schedules of employer allocations for each Plan and the specified column totals included in the schedules of pension amounts by employer for each Plan are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the schedules of employer allocations and the specified column totals included in the schedules of pension amounts by employer. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the schedules of employer allocations and the specified column totals included in the schedules of pension amounts by employer, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the schedules of employer allocations and the specified column totals included in the schedules of pension amounts by employer in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the schedules of employer allocations and the specified column totals included in the schedules of pension amounts by employer.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinion

In our opinion, the schedules referred to above present fairly, in all material respects, the employer and non-employer entity allocations and net pension liability, total deferred outflows of resources, total deferred inflows of resources, and total pension expense for the total of all participating employer and non-employer entities for the Maine Public Employees Retirement System PLD Consolidated Plan, the Maine Public Employees Retirement System State Employee and Teacher Plan – State Employee Portion and the Maine Public Employees Retirement System State Employee and Teacher Plan – Teacher Portion as of and for the year ended June 30, 2016, in accordance with U.S. generally accepted accounting principles.

Other Matter

We have audited, in accordance with U.S. generally accepted auditing standards, the financial statements of the Maine Public Employees Retirement System as of and for the year ended June 30, 2016, and our report thereon, dated October 31, 2016, expressed an unmodified opinion on those financial statements.

Restriction on Use

Our report is intended solely for the information and use of the Maine Public Employees Retirement System management, the Board of Trustees of the Maine Public Employees Retirement System, and the Maine Public Employees Retirement System PLD Consolidated Plan, the Maine Public Employees Retirement System State Employee and Teacher Plan – State Employee Portion and the Maine Public Employees Retirement System State Employee and Teacher Plan – Teacher Portion employers and their auditors and is not intended to be, and should not be, used by anyone other than these specified parties.

⁽¹⁾ The total pension liability and pension related numbers for the State Employee and Teacher Plan are actuarially determined separately for the State Employee Portion and the Teacher Portion of the Plan.

⁽²⁾ Changes in proportion and differences between employer contributions and proportionate share of contributions.

⁽³⁾ Collective Plan totals may not agree due to rounding.

See accompanying notes to the Schedules of Employer and Non-Employer Entity Allocations and Pension Amounts By Employer for the PLD Consolidated and State Employee & Teacher Plans.

Total for All Employers and Non-Employer Entity		<u>\$ 118,054,494</u>	<u>100.000000%</u>

⁽¹⁾ The total pension liability and pension related numbers for the State Employee and Teacher Plan are actuarially determined separately for the State Employee Portion and the Teacher Portion of the Plan.

⁽²⁾ The allocation basis used to distribute Net Pension Liability and related numbers is based on Unfunded Actuarial Liability contributions to the Plan.

See accompanying notes to the Schedules of Employer and Non-Employer Entity Allocations and Pension Amounts By Employer for the PLD Consolidated and State Employee & Teacher Plans.

Maine Public Employees Retirement System
Schedule of Pension Amounts by Employer - State Employee and Teacher Plan - Teacher Portion⁽¹⁾ (continued)
As of and for the Fiscal Year Ended June 30, 2016

⁽¹⁾ The total pension liability and pension related numbers for the State Employee and Teacher Plan are actuarially determined separately for the State Employee Portion and the Teacher Portion of the Plan.

⁽²⁾ Changes in proportion and differences between employer contributions and proportionate share of contributions.

⁽³⁾ Collective Plan totals may not agree due to rounding.

See accompanying notes to the Schedules of Employer and Non-Employer Entity Allocations and Pension Amounts By Employer for the PLD Consolidated and State Employee & Teacher Plans.

MAINE PUBLIC EMPLOYEES RETIREMENT SYSTEM

NOTES TO SCHEDULES OF EMPLOYER AND NON-EMPLOYER ENTITY ALLOCATIONS AND PENSION AMOUNTS BY EMPLOYER FOR THE PLD CONSOLIDATED PLAN AND THE STATE EMPLOYEE AND TEACHER PLAN

June 30, 2016

1. Plan Description

The State Employee and Teacher (SET) Plan is a multiple-employer cost sharing plan with a special funding situation. As of June 30, 2016 there were 236 employers, including the State of Maine (the State), participating in the plan. The State is also a non-employer contributing entity in that the State pays the initial unfunded actuarial liability (IUAL) on behalf of teachers, while school districts contribute the normal cost, calculated actuarially, for their teacher members.

The Participating Local District (PLD) Consolidated Plan is a multiple-employer cost sharing plan. Eligible employers (districts) are defined in Maine statute. As of June 30, 2016 there were 283 employers in the plan.

Each Plan is administered by the Maine Public Employees Retirement System (the System).

Pension Benefits

Benefit terms are established in Maine statute; in the case of the PLD Consolidated Plan, an advisory group, also established by statute, reviews the terms of the plan and periodically makes recommendations to the Legislature to amend them. The System's retirement programs provide defined retirement benefits based on members' average final compensation and service credit earned as of retirement. Vesting (i.e., eligibility for benefits upon reaching qualification) occurs upon the earning of five years of service credit (effective October 1, 1999, the prior ten year requirement was reduced by legislative action to five years for State employees and teachers; separate legislation enacted the same reduced requirement for judges, legislators, and employees of PLDs). In some cases, vesting occurs on the earning of one year of service credit immediately preceding retirement at or after normal retirement age. Normal retirement age for State employees and teachers is age 60, 62 or 65. The normal retirement age is determined by whether a member had met certain creditable service requirements on specific dates, as established by statute. For PLD members, normal retirement age is 60 or 65. The monthly benefit of members who retire before normal retirement age by virtue of having at least 25 years of service credit is reduced by a statutorily prescribed factor for each year of age that a member is below her/his normal retirement age at retirement. The System also provides disability and death benefits which are established by statute for State employee and teacher members and by contract with other participating employers under applicable statutory provisions.

Upon termination of membership, members' accumulated employee contributions are refundable with interest, credited in accordance with statute. Withdrawal of accumulated contributions results in forfeiture of all benefits and membership rights. The annual rate of interest credited to members' accounts is set by the System's Board of Trustees and is currently 5.0%.

Member and Employer Contributions

Retirement benefits are funded by contributions from members and employers and by earnings on investments. Disability and death benefits are funded by employer normal cost contributions and by investment earnings. Member and employer contribution rates are each a percentage of applicable member compensation. Member contribution rates are defined by law or by the System's Board of Trustees and depend on the terms of the plan under which a member is covered. Employer contribution rates are determined through actuarial valuations.

MAINE PUBLIC EMPLOYEES RETIREMENT SYSTEM

NOTES TO SCHEDULES OF EMPLOYER AND NON-EMPLOYER ENTITY ALLOCATIONS AND PENSION AMOUNTS BY EMPLOYER FOR THE PLD CONSOLIDATED PLAN AND THE STATE EMPLOYEE AND TEACHER PLAN

June 30, 2016

2. Summary of Significant Accounting Policies

Revenue Recognition

The Schedules of Employer Allocations for the SET Plan are displayed separately for state employees and teachers. This is to reflect the unique funding arrangement that currently exists within the SET Plan for teachers. Total employer contributions for the state employees group, adjusted for employer specific liability contributions, were used as the basis for allocation. For the teacher group, total employer and non-employer entity contributions were used as the basis for the allocation, adjusted to remove the normal cost contributions paid by local school districts on behalf of their employees. This leaves contributions toward the unfunded liability of the Plan as the basis of allocation. This method of allocation properly distributes the collective net pension liability between the State of Maine as the non-employer contributing entity and those districts contributing towards the unfunded liability of the plan using grant funding.

The Schedule of Employer Allocations for the PLD Consolidated Plan reflects current year employer contributions, adjusted to remove contributions related to employer specific liabilities to the Plan.

The following tables present a reconciliation of employer contributions reported in the System's Statement of Changes in Fiduciary Net Position to the employer contributions used to determine each employer's proportionate share of the collective pension amounts.

		PLD Consolidated
	SET Plan	Plan
<u>June 30, 2016</u>		
Employer and Non-Employer Contributions Reported in the System's Statement of Changes in Fiduciary Net Position for the Fiscal Year ended June 30, 2016	\$ 311,690,555	\$ 47,624,182
Adjusted for:		
Remove Employer Specific Liability Contributions	(163,144)	(43,718)
Remove Normal Cost Contributions from Teacher Districts	(39,772,630)	-
Remove Employer Paid Member Contributions	<u>(9,635,900)</u>	<u>(655,861)</u>
Total Employer Contributions Used as the Basis for Allocating Collective Pension Amounts	<u>\$ 262,118,881</u>	<u>\$ 46,924,603</u>

June 30, 2016

3. Collective Net Pension Liability

The collective net pension liability for the SET Plan and the PLD Consolidated Plan, measured as of June 30, 2016 is as follows:

	<u>State Employees</u>	<u>Teacher</u>	<u>Total SET Plan</u>	<u>PLD Consolidated Plan</u>
Collective Total Pension Liability	\$ 4,637,590,460	\$ 8,432,364,488	\$ 13,069,954,948	\$ 2,889,740,634
Less: Plan Net Fiduciary Position	<u>(3,294,631,835)</u>	<u>(6,665,703,555)</u>	<u>(9,960,335,390)</u>	<u>(2,358,409,925)</u>
Collective Net Pension Liability	<u>\$ 1,342,958,625</u>	<u>\$ 1,766,660,933</u>	<u>\$ 3,109,619,558</u>	<u>\$ 531,330,709</u>

4. Special Funding Situation – SET Plan

The State of Maine participates in the SET Plan as a non-employer contributing entity in that the state pays the unfunded liability associated with the teachers and the local teacher districts, as employers, pay the normal cost contributions as determined by the actuary.

5. Actuarial Methods and Assumptions

The collective total pension liability for the Plans was determined by an actuarial valuation as of June 30, 2016, using the following methods and assumptions, applied to all periods included in the measurement:

Actuarial Cost Method

The Entry Age Normal actuarial funding method is used to determine costs. Under this funding method, the total employer contribution rate consists of two elements, the normal cost rate and the unfunded actuarial liability (UAL) rate.

The individual entry age normal method is used to determine liabilities. Under the individual entry age normal method, a normal cost rate is calculated for each employee. This rate is determined by taking the value, as of age at entry into the plan, of the member's projected future benefits, and dividing it by the value, also as of the member's entry age, of his expected future salary. The normal cost for each employee is the product of his pay and his normal cost rate. The normal cost for the group is the sum of the normal costs for all members.

Experience gains and losses, i.e., decreases or increases in liabilities and/or in assets when actual experience differs from the actuarial assumptions, affect the unfunded actuarial accrued liability.

MAINE PUBLIC EMPLOYEES RETIREMENT SYSTEM

NOTES TO SCHEDULES OF EMPLOYER AND NON-EMPLOYER ENTITY ALLOCATIONS AND PENSION AMOUNTS BY EMPLOYER FOR THE PLD CONSOLIDATED PLAN AND THE STATE EMPLOYEE AND TEACHER PLAN

June 30, 2016

5. Actuarial Methods and Assumptions (Continued)

Asset Valuation Method

The actuarial valuation employs a technique for determining the actuarial value of assets which dampens the swing in the market value. The specific technique adopted in this valuation recognizes in a given year one-third of the investment return that is different from the actuarial assumption for investment return.

Amortization

The IUAL of the SET Plan is amortized on a level percentage of payroll over the amortization period then in effect under statutory and constitutional requirements. All other gains, losses, and changes are amortized over ten-year periods beginning on the date as of which they occur.

The net pension liability of the PLD Consolidated Plan is amortized on a level percentage of payroll using a method where a separate twenty-year closed period is established annually for the gain or loss for that year.

Significant actuarial assumptions employed by the actuary for funding purposes as of June 30, 2016 are as follows:

	State Employee and Teacher Plan	PLD Consolidated Plan
Investment Rate of Return	6.875% per annum, compounded annually; 7.125% was used for the period ended June 30, 2015	
Inflation Rate	2.75%; 3.50% was used for the period ended June 30, 2015	
Annual Salary Increases, including inflation	For the period ended June 30, 2016:	
	State employees, 2.75% - 8.75%; Teachers, 2.75% - 14.50%	2.75% - 9.00%
	For the period ended June 30, 2015:	
	State employees, 3.50% - 10.50%; Teachers, 3.50% - 13.50%	3.50% - 9.50%
Cost of Living Benefit Increases	2.20%; 2.55% was used for the period ended June 30, 2015	
Mortality Rates	For the period ended June 30, 2016:	
	For active members and non-disabled retirees of the SET Plan and the PLD Consolidated Plan, the RP2014 Total Dataset Healthy Annuitant Mortality Table, for males and females, is used. For all recipients of disability benefits, the RP2014 Total Dataset Disabled Annuitant Mortality Table, for males and females, is used.	
	For the period ended June 30, 2015:	
	For active members and non-disabled retirees of the SET Plan and the PLD Consolidated Plan, the RP2000 Tables projected forward to 2015 using Scale AA are used; the ages are set back two years for employees of the teacher plan. Mortality assumptions were also reviewed and updated in 2011 for the PLD Consolidated Plan, and in 2012 for the other Plans, based on actual demographic data of the Plans. For all recipients of disability benefits, the Revenue Ruling 96-7 Disabled Mortality Table for Males and Females is used.	

MAINE PUBLIC EMPLOYEES RETIREMENT SYSTEM

NOTES TO SCHEDULES OF EMPLOYER AND NON-EMPLOYER ENTITY ALLOCATIONS AND PENSION AMOUNTS BY EMPLOYER FOR THE PLD CONSOLIDATED PLAN AND THE STATE EMPLOYEE AND TEACHER PLAN

June 30, 2016

5. Actuarial Methods and Assumptions (Concluded)

The long-term expected rate of return on pension plan assets was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major class of assets. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the Plan's target asset allocation as of June 30, 2016 are summarized in the following table. Assets for each of the defined benefit plans are commingled for investment purposes.

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
US Equities	20%	5.7%
Non-US Equities	20%	5.5%
Private Equity	10%	7.6%
Real Assets:		
Real Estate	10%	5.2%
Infrastructure	10%	5.3%
Hard Assets	5%	5.0%
Fixed Income	25%	2.9%

Discount Rate

The discount rate used to measure the collective total pension liability was 6.875% for 2016 for each of the Plans. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that employer and non-employer entity contributions will be made at contractually required rates, actuarially determined. Based on these assumptions, the Plan's fiduciary net position was projected to be available to make all projected future benefit payments to current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

The following table shows how the collective net pension liability/(asset) as of June 30, 2016 would change if the discount rate used was one percentage point lower or one percentage point higher than the current rate.

	<u>1% Decrease (5.875%)</u>	<u>Current Discount Rate (6.875%)</u>	<u>1% Increase (7.875%)</u>
State Employees	\$ 1,885,465,447	\$ 1,342,958,625	\$ 886,784,522
Teacher	2,828,874,379	1,766,660,933	881,315,790
Total SET Plan	<u>\$ 4,714,339,826</u>	<u>\$ 3,109,619,558</u>	<u>\$ 1,768,100,312</u>
PLD Consolidated Plan	<u>\$ 881,913,266</u>	<u>\$ 531,330,709</u>	<u>\$ 201,269,751</u>

June 30, 2016

6. Components of Schedules of Pension Amounts by Employer

Net Pension Liability

Each employer's share of the collective net pension liability is equal to the collective net pension liability multiplied by the employer's proportionate share as of June 30, 2016 as shown in the schedules of employer and non-employer contributing entity allocations. Changes in net pension liability are recognized in pension expense for the year ended June 30, 2016 with the following exceptions.

Differences between Expected and Actual Experience

The difference between expected and actual experience with regard to economic or demographic factors are recognized in pension expense using a straight-line amortization method over a closed period equal to the average expected remaining service lives of active and inactive members in each plan. The first year is recognized as pension expense and the remaining years are shown as either deferred outflows of resources or deferred inflows of resources. For 2016, this was three years for the SET Plan and four years for the PLD Consolidated Plan.

Differences between Projected and Actual Investment Earnings on Pension Plan Investments

Differences between projected and actual investment earnings are recognized in pension expense using a straight-line amortization method over a closed five-year period. The first year is recognized as pension expense and the remaining years are shown as either deferred outflows of resources or deferred inflows of resources.

Changes of Assumptions

Differences due to changes of assumptions about future economic or demographic factors or other inputs are recognized in pension expense using a straight-line amortization method over a closed period equal to the average expected remaining service lives of active and inactive members in each plan. The actuarial assumptions used for the year ended June 30, 2016 valuation were based on the results of an actuarial experience study for the period of June 30, 2012 through June 30, 2015. Please refer to Note 5 for information relating to changes of assumptions. The first year is recognized as pension expense and the remaining years are shown as either deferred outflows of resources or deferred inflows of resources.

Changes in Proportion and Differences between Employer Contributions and Proportionate Share of Contributions

Differences resulting from a change in proportionate share of contributions and differences between total employer contributions and the employer's proportionate share of contributions are recognized in pension expense using a straight-line amortization method over a closed period equal to the average expected remaining service lives of active and inactive members in each plan. The first year is recognized as pension expense and the remaining years are shown as either deferred outflows of resources or deferred inflows of resources. Differences between total employer contributions and the employer's proportionate share of contributions may arise when an employer has a contribution requirement for an employer specific liability.

MAINE PUBLIC EMPLOYEES RETIREMENT SYSTEM

June 30, 2016

6. Components of Schedules of Pension Amounts by Employer (Concluded)

Allocable Pension Expense

The calculation of collective pension expense for the year ended June 30, 2016 is as follows:

	State <u>Employees</u>	<u>Teacher</u>	<u>Total SET Plan</u>	PLD Consolidated <u>Plan</u>
Service Cost	\$ 76,009,053	\$127,288,000	\$ 203,297,053	\$ 74,208,414
Interest Cost	308,247,977	574,537,157	882,785,134	192,774,429
Cost of Benefit Changes	-	-	-	-
Amortization of Differences in Actual and Expected Experience	(6,042,763)	11,046,011	5,003,248	(9,503,455)
Amortization of Differences in Changes to Assumptions	51,514,692	14,514,370	66,029,062	22,119,454
Amortization of Differences in Expected and Actual Investment Income	20,496,766	43,310,607	63,807,373	14,382,479
Plan Administrative Expenses	2,857,213	5,791,817	8,649,030	2,028,294
Transfers Out	6,321,932	25,227	6,347,159	217,338
Expected Investment Income	(229,358,876)	(464,104,852)	(693,463,728)	(163,315,319)
Member Contributions	(35,826,925)	(89,697,061)	(125,523,986)	(40,861,405)
Allocable Pension Expense	<u>\$194,219,069</u>	<u>\$222,711,276</u>	<u>\$ 416,930,345</u>	<u>\$ 92,050,229</u>

Each employer's proportionate share of the collective pension expense is equal to the total collective pension expense multiplied by the employer's proportionate share percentage as of June 30, 2016.

7. Collective Deferred Outflows (Inflows) of Resources

Differences between expected and actual experience with regard to economic and demographic assumptions are recognized in pension expense over a closed period equal to the expected remaining services lives of both active and inactive members, beginning in the period in which the difference arose. Differences between actual and expected investment income are recognized over a closed five year period. Amounts not recognized in the current period are reflected in collective deferred outflows and inflows of resources related to pensions.
