To the Board of Trustees
Teachers' Retirement System of Louisiana
Baton Rouge, Louisiana

We have audited the accompanying schedule of employer allocations of the Teachers' Retirement System of Louisiana as of and for the year ended June 30, 2015, and the related notes. We have also audited the total for all entities of the columns titled net pension liability, total deferred outflows of resources, total deferred inflows of resources, and total pension expense included in the accompanying schedule of pension amounts by employer of Teachers' Retirement System of Louisiana as of and for the year ended June 30, 2015, and the related notes to the schedule.

Management's Responsibility for the Schedules

Management is responsible for the preparation and fair presentation of the schedules in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of employer schedules that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the schedule of employer allocations and the specified column totals included in the schedule of pension amounts by employer based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the schedule of employer allocations and the specified column totals included in the schedule of pension amounts by employer are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the schedule of employer allocations and the specified column totals included in the schedule of pension amounts by employer. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the employer schedules, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the schedule of employer allocations and the specified column totals included in the schedule of pension amounts by employer in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the schedule of employer allocations and the specified column totals included in the schedule of pension amounts by employer.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the schedules referred to above present fairly, in all material respects, the employer allocations and the net pension liability, total deferred outflows of resources, total deferred inflows of resources, and total pension expense for the total of all participating entities for Teachers' Retirement System of Louisiana, as of and for the year ended June 30, 2015 in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As disclosed in Note F to the employer schedules, the total pension liability for the Teachers' Retirement System of Louisiana was \$28,646,296,897 as of June 30, 2015. The actuarial valuations were based on various assumptions made by the System's actuary. Because actual experience may differ from the assumptions used in the actuarial valuation, there is a risk that the total pension liability at June 30, 2015 could be under or overstated.

As disclosed in Note I to the employer pension schedules, the deferred inflow or deferred outflow of resources resulting from differences in contributions remitted to the System and the employer's proportionate share and its resulting amortization is not reported in the employer pension schedules. The deferred inflow or deferred outflow of resources resulting from changes in the employer's proportionate share of the total deferred outflows, total deferred inflows, and net pension liability since the prior measurement date and its resulting amortization is not reported in the employer pension schedules. As a result, the employer pension schedules do not reflect all activity to be reported in the total deferred outflows of resources and total deferred inflows of resources.

Other Matters

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States, the financial statements of Teachers' Retirement System of Louisiana as of and for the year ended June 30, 2015, and our report thereon, dated September 30, 2015, expressed an unmodified opinion on those financial statements.

Other Information

Our audit was conducted for the purpose of forming an opinion on the employer allocations and employer pension schedules of Teachers' Retirement System of Louisiana. The supplementary information listed in the table of contents is presented for purposes of additional analysis and is not part of the employer schedules. The supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the employer pension schedules. The information has been subjected to the auditing procedures applied in the audit of the employer pension schedules and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the employer pension schedules or to the employer pension schedules themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated February 18, 2016 on our consideration of the Teachers' Retirement System of Louisiana's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Teachers' Retirement System of Louisiana's internal control over financial reporting and compliance.

Restriction on Use

Our report is intended solely for the information and use of Teachers' Retirement System of Louisiana's management, the Board of Trustees, Teachers' Retirement System of Louisiana's participating employers and their auditors and is not intended to be and should not be used by anyone other than these specified parties.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL
OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER
MATTERS BASED ON AN AUDIT OF EMPLOYER PENSION
SCHEDULES PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS

February 18, 2016

To the Board of Trustees
Teachers' Retirement System of Louisiana
Baton Rouge, Louisiana

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the employer pension schedules of the Teachers' Retirement System of Louisiana, as of June 30, 2015 and the related notes to the schedules and have issued our report thereon dated February 18, 2016.

Internal Control Over Financial Reporting

In planning and performing our audit of the employer pension schedules, we considered the Teachers' Retirement System of Louisiana's internal control over financial reporting to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the employer pension schedules, but not for the purpose of expressing an opinion on the effectiveness of the Teachers' Retirement System of Louisiana's internal control. Accordingly, we do not express an opinion on the effectiveness of the Teachers' Retirement System of Louisiana's internal control.

www.dhhmcpa.com

Certified Public Accountants
Society of LA CPAs

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's employer schedules will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Teachers' Retirement System of Louisiana's employer pension schedules are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of employer pension schedule amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

The accompanying notes are an integral part of these schedules.

NOTES TO SCHEDULES

The Teachers' Retirement System of Louisiana (TRSL or the System) is the administrator of a cost-sharing, multiple-employer defined benefit pension plan established and provided for within Title 11, Chapter 2, of the Louisiana Revised Statutes to provide benefits to members and their dependents at retirement or in the event of death, disability, or termination of employment.

A. Summary of Significant Accounting Policies

The System prepares its employer pension schedules in accordance with the Governmental Accounting Statement No. 68, Accounting and Financial Reporting for Pensions – an amendment of GASB Statement No. 27. GASB Statement No. 68 established standards for measuring and recognizing liabilities, deferred outflows of resources, deferred inflows of resources, and expenses/expenditures. It provides methods and assumptions that should be used to project benefit payments; discount projected benefit payments to their actuarial present value; and attribute that present value to periods of employee service. It also provides methods to calculate participating employer's proportionate share of net pension liability, deferred inflows, deferred outflows, pension expense, and amortization periods for deferred inflows and deferred outflows.

1. Basis of Accounting

The System's employer pension schedules were prepared using the accrual basis of accounting. Member and employer contributions are recognized when due, pursuant to formal commitments as well as statutory or contractual requirements. The member's earnable compensation is attributed to the employer(s) for which the member is employed as of June 30, 2015.

2. System Employees

The System is not allocated a proportionate share of the net pension liability related to its employees. The net pension liability attributed to the System's employees is allocated to the remaining employers based on their respective employer allocation percentage.

3. Plan Fiduciary Net Position

Plan fiduciary net position is a significant component of the System's collective net pension liability. The System's plan fiduciary net position was determined using the accrual basis of accounting. The System's assets, liabilities, revenues, and expenses were recorded with the use of estimates and assumptions in conformity with accounting principles generally accepted in the United States of America. Such estimates primarily relate to unsettled transactions and events as of the date of the financial statements and estimates over the determination of the fair market value of the System's investments. Accordingly, actual results may differ from estimated amounts.

B. Plan Description

TRSL was established for the purpose of providing retirement allowances and other benefits as stated under the provisions of La. R.S. 11:700-999, as amended, for eligible teachers, employees, and their beneficiaries. The projection of benefit payments in the calculation of the total pension liability includes all benefits to be provided to current active and inactive employees through the System in accordance with the benefit terms and any additional legal agreements to provide benefits that are in force at the measurement date.

The following is a description of the plan and its benefits, and is provided for general information purposes only. Participants should refer to the appropriate statutes for more complete information.

Retirement Benefits

Service retirement benefits are payable to members who have terminated covered employment and meet both age and service eligibility requirements.

1. NORMAL RETIREMENT

Regular Plan - Members whose first employment makes them eligible for membership in a Louisiana state retirement system on or after **July 1, 2015**, may retire with a 2.5% benefit factor after attaining age sixty-two with at least 5 years of service credit and are eligible for an actuarially reduced benefit with 20 years of service at any age. Members hired between **January 1, 2011 and June 30, 2015** may retire with a 2.5% benefit factor after attaining age sixty with at least 5 years of service credit and are eligible for an actuarially reduced benefit with 20 years of service at any age. Members hired between **July 1, 1999 and December 21, 2010**, are eligible for a 2.5% benefit factor at the earliest of age 60 with 5 years of service, age 55 with 25 years of service, or at any age with 30 years of service. Members may retire with an actuarially reduced benefit with 20 years of service at any age. If hired before July 1, 1999, members are eligible for a 2% benefit factor at the earliest of age 60 with 5 years of service, or at any age with 20 years of service and are eligible for a 2.5% benefit factor at the earliest of age 65 with 20 years of service, age 55 with 25 years of service, or at any age with 30 years of service.

Plan A - Members can retire with a 3.0% benefit factor at age 55 with 25 years of service, age 60 with five years of service, or any age with 30 years of service. Plan A is closed to new entrants.

Plan B - Members may retire with a 2.0% benefit factor at age 55 with 30 years of service, or age 60 (first employed between January 1, 2011-June 30, 2015) with 5 years of service, or age 62 (first employed after July 1, 2015) with 5 years of service, or an actuarially reduced benefit with 20 years of service at any age.

Benefit Formula

For all plans, retirement benefits are based on a formula which multiplies the final average compensation by the applicable benefit factor, and by the years of creditable service. For Regular Plan and Lunch Plan B members whose first employment makes them eligible for membership in a Louisiana state retirement system on or after January 1, 2011, final average compensation is defined as the highest average 60-month period. For all other members, final average compensation is defined as the highest average 36-month period.

Payment Options

A retiring member is entitled to receive the maximum monthly benefit payable until the member's death. In lieu of the maximum monthly benefit, the member can elect to receive a reduced monthly benefit payable in the form of a Joint and Survivor Option, or a monthly benefit (maximum or reduced Joint and Survivor Option) with a lump sum that can't exceed 36 months of the members' maximum monthly benefit amount.

Effective July 1, 2009, members can make an irrevocable election at retirement to receive an actuarially reduced monthly benefit which increases 2.5% annually, beginning on the first retirement anniversary date, but not before age 55 or before the retiree would have attained age 55 in the case of a surviving spouse. This option can be chosen in combination with the above options.

2. DEFERRED RETIREMENT OPTION PROGRAM (DROP)

In lieu of terminating employment and accepting a service retirement, an eligible member can begin participation in the Deferred Retirement Option Program (DROP) on the first retirement eligibility date for a period not to exceed 3 years. A member has a 60 day window from his first eligible date to participate in the program in order to participate for the maximum number of years. Delayed participation reduces the three year maximum participation period. During participation, benefits otherwise payable are fixed, and deposited in an individual DROP account.

Upon termination of DROP participation, the member can continue employment and earn additional benefit accruals to be added to the fixed pre-DROP benefit.

Upon termination of employment, the member is entitled to the fixed benefit, an additional benefit based on post-DROP service (if any), and the individual DROP account balance which can be paid in a lump sum or as an additional annuity based upon the account balance.

3. DISABILITY RETIREMENT BENEFITS

Active members whose first employment makes them eligible for membership in a Louisiana state retirement system before January 1, 2011, and who have five or more years of service credit are eligible for disability retirement benefits if certified by the State Medical Disability Board (SMDB) to be disabled from performing their job. All other members must have at least 10 years of service to be eligible for a disability benefit. Calculation of the disability benefit as well as

the availability of a minor child benefit is determined by the plan to which the member belongs and the date on which the member's first employment made them eligible for membership in a Louisiana state retirement system.

4. SURVIVOR BENEFITS

A surviving spouse with minor children of an active member with five years of creditable service (2 years immediately prior to death) or 20 years of creditable service is entitled to a benefit equal to the greater of (a) \$600 per month, or (b) 50% of the member's benefit calculated at the 2.5% accrual rate for all creditable service. When a minor child(ren) is no longer eligible to receive survivor benefits, the spouse's benefit reverts to a survivor benefit in accordance with the provisions for a surviving spouse with no minor child(ren). Benefits for the minor child(ren) cease when he/she is no longer eligible.

Each minor child (maximum of 2) shall receive an amount equal to the greater of (a) 50% of the spouse's benefit, or (b) \$300 (up to 2 eligible children). Benefits to minors cease at attainment of age 21, marriage, or age 23 if enrolled in an approved institution of higher education.

A surviving spouse without minor children of an active member with 10 years of creditable service (2 years immediately prior to death) or 20 years of creditable service is entitled to a benefit equal to the greater of (a) \$600 per month, or (b) the option 2 equivalent of the benefit calculated at the 2.5% benefit factor for all creditable service.

5. PERMANENT BENEFIT INCREASES/COST-OF-LIVING ADJUSTMENTS

As fully described in Title 11 of the Louisiana Revised Statutes, the System allows for the payment of ad hoc permanent benefit increases, also known as cost-of-living adjustments (COLAs) that are funded through investment earnings when recommended by the Board of Trustees and approved by the State Legislature.

6. OPTIONAL RETIREMENT PLAN (ORP)

The Optional Retirement Plan (ORP) was established for academic employees of public institutions of higher education who are eligible for membership in TRSL. This plan was designed to provide certain academic and unclassified employees of public institutions of higher education an optional method of funding for their retirement.

The ORP is a defined contribution pension plan which provides for portability of assets and full and immediate vesting of all contributions submitted on behalf of the affected employees to the approved providers. These providers are selected by the TRSL Board of Trustees. Monthly employer and employee contributions are invested as directed by the employee to provide the employee with future retirement benefits. The amount of these benefits is entirely dependent upon the total contributions and investment returns accumulated during the employee's working lifetime. Employees in eligible positions of higher education can make an irrevocable election to participate in the ORP rather than TRSL and purchase annuity contracts—fixed, variable, or both—for benefits payable at retirement.

C. Employer Contributions

The employer contribution rate is established annually under La. R.S. 11:101-11:104 by the Public Retirement Systems' Actuarial Committee (PRSAC), taking into consideration the recommendation of the System's actuary. Each sub plan pays a separate actuarially determined employer contribution rate. However, all assets of TRSL are used for the payment of benefits for all classes of members, regardless of their plan.

The normal cost portion of each plan's employer contribution rate varies based upon that plan's benefits, member demographics, and the rate contributed by employees. The Unfunded Accrued Liability (UAL) contribution rate is determined in aggregate for all plans. The UAL resulting from legislation specific to a plan or group of plans will be allocated entirely to that plan or those plans.

For ORP, only the UAL portion of the employer contribution is retained by the plan. Therefore, only the UAL projected rates were used in the projection of future contributions in determining an employer's proportionate share.

Rates for the year ended June 30, 2015, are as follows:

TRSL Sub Plan	Total Employer Contribution
	2015
K-12 Regular Plan	28.0%
Higher Ed Regular Plan	26.4%
Plan A	33.1%
Plan B	30.1%

ORP	Employer UAL
2015	22.7%

NOTE: In accordance with state statute, the System receives ad valorem taxes and state revenue sharing funds. These additional sources of income are used as employer contributions and are considered support from non-employer contributing entities, but are not considered special funding situations.

D. Schedule of Employer Allocations

The schedule of employer allocations reports the employer contributions in addition to the employer allocation percentage. The required projected employer contributions are the basis used to determine the proportionate relationship of each employer to all employers of the System. The employer's proportion was determined on a basis that is consistent with the manner in which contributions to the pension plan are determined. The allocation percentages were used in calculating each employer's proportionate share of the pension amounts.

The allocation method used in determining each employer's proportion was based on the employer's projected contribution effort to the plan for 2016 as compared to the total of all employers' projected contribution effort to the plan for 2016. The employers' projected contribution effort was actuarially determined by the System's actuary, Foster and Foster Actuaries & Consultants.

The employers' projected contribution effort was calculated by multiplying the eligible annual compensation of active members in the System on June 30, 2015, by the 2016 employers' actuarially required contribution rates. Eligible compensation reported during the fiscal year was the basis for the computations. If reported compensation was less than a full year at June 30, the compensation was annualized to project a full year. Most employees of TRSL are 9 month employees and receive a full year credit for working 9 months. Compensation reported over the 9 month period represents a full year and does not need to be annualized. Also, some members may be employed full-time with one employer and part time with a second employer; these are referred to as primary and secondary employers respectively. Salaries for secondary employers were added to the employers' total payroll without annualizing. For ORP members, their earnings for the fiscal year were included in the employers' totals with no adjustments.

TRSL Sub Plan	Total Employer Contribution
	2016
K-12 Regular Plan	26.3%
Higher Ed Regular Plan	25.3%
Plan A	31.3%
Plan B	28.8%

ORP	Employer UAL
2016	22.0%

E. Schedules of Pension Amounts by Employer

The schedules of pension amounts by employer display each employer's allocation of the net pension liability. The schedules of pension amounts by employer were prepared using the allocations included in the schedule of employer allocation.

F. Actuarial Methods and Assumptions

The net pension liability was measured as the portion of the present value of projected benefit payments to be provided through the pension plan to current active and inactive employees that is attributed to those employees' past periods of service, less the amount of the pension plan's fiduciary net position.

The components of the net pension liability of the System's employers as of June 30, 2015, are as follows:

Schedule of Employers' Net Pension Liability	
	June 30, 2015
Total pension liability	\$ 28,646,296,897
Plan fiduciary net position ¹	\$ 17,894,019,588
Employers' net pension liability ²	\$ 10,752,277,309
Plan fiduciary net position as a percentage of total pension liability	62.5%
¹ Plan fiduciary net position excludes side-fund assets held for the LSU Agricultural and Extension Service.	
² Based on market value of assets	

A summary of the actuarial methods and assumptions used in determining the total pension liability as of June 30, 2015, are as follows:

Valuation date	June 30, 2015
Actuarial cost method	Entry Age Normal
Amortization approach	Closed
Actuarial assumptions:	
Expected Remaining Service Lives	5 years
Investment rate of return	7.75% net of investment expenses
Inflation rate	2.5% per annum
Projected salary increases	3.50% - 10.0% varies depending on duration of service
Cost-of-living adjustments	None
Mortality	Mortality rates were projected based on the RP-2000 Mortality Table with projection to 2025 using Scale AA.
Termination and disability	Termination, disability, and retirement assumptions were projected based on a five year (2008-2012) experience study of the System's members.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expenses and inflation) are developed for each major asset class. These ranges are combined to produce the long term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation of 2.5% and an adjustment for the effect of rebalancing/diversification. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of June 30, 2015 are summarized in the following table:

Asset Class	Long Term Expected Real Rate of Return
Domestic Equity	4.71%
International Equity	5.69%
Domestic Fixed Income	2.04%
International Fixed Income	2.80%
Alternative Investments	5.94%

The discount rate used to measure the total pension liability was 7.75%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rates and that contributions from participating employers will be made at the actuarially determined rates approved by PRSAC taking into consideration the recommendation of the System's actuary. Based on those assumptions, the System's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

G. Sensitivity to Changes in Discount Rate

The following presents the net pension liability of the participating employers calculated using the discount rate of 7.75%, as well as what the employers' net pension liability would be if it were calculated using a discount rate that is one percentage point lower or one percentage point higher than the current rate.

	1% Decrease	Current Discount Rate	1% Increase
	6.75%	7.75%	8.75%
Employers' net pension liability for 2015	\$13,605,538,764	\$10,752,277,309	\$8,325,523,367

H. Change in Net Pension Liability

The changes in the net pension liability for the year ended June 30, 2015, were recognized as pension expense or benefit in the current reporting period except as follows:

1. Differences between Expected and Actual Experience

Differences between expected and actual experience with regard to economic or demographic factors in the measurement of the total pension liability were recognized in pension expense using the straight-line amortization method over a closed period equal to the average of the expected remaining service lives of all employees that are provided with pensions through the pension plan. The difference between expected and actual experience resulted in a deferred inflow of resources in the amount of \$62,489,198 for the year ended June 30, 2015. Pension benefit and remaining deferred inflow resulting from the difference for the year ended June 30, 2015 was \$12,497,840 and \$49,991,358, respectively.

Remaining deferred inflows resulting from this difference recorded in prior years was \$73,396,186 as of June 30, 2015 with a pension benefit being recorded in the amount of \$24,465,396 for the year ended June 30, 2015.

2. Differences between Projected and Actual Investment Earnings

Differences between projected and actual investment earnings on pension plan investments were recognized in pension expense using the straight-line amortization method over a closed five-year period. The difference between projected and actual investment earnings resulted in a deferred outflow of resources in the amount of \$926,150,268 for the year ended June 30, 2015. Pension expense and remaining deferred inflow resulting from the difference for the year ended June 30, 2015, was \$185,230,054 and \$740,920,214, respectively. Remaining deferred inflow resulting from this difference in prior years was \$978,208,512 with a pension benefit being recorded in the amount of \$326,069,504 for the year ended June 30, 2015.

The deferred outflow recorded in the current year was netted with the remaining deferred inflow recorded in the prior years to result in a deferred inflow being recorded in the amount of \$237,288,297 as of June 30, 2015.

I. Contributions – Proportionate Share/Change in Proportionate Share

Differences between contributions remitted to the System and the employer's proportionate share are recognized in pension expense using the straight-line amortization method over a closed period equal to the average of the expected remaining service lives of all employees that are provided with a pension through the pension plan. The resulting deferred inflow/outflow and amortization is not reflected in the Schedule of Pension Amounts by Employer due to differences that could arise between contributions reported by the System and contributions reported by the participating employer.

Changes in the employer's proportionate share of the collective net pension liability and collective deferred outflows of resources and deferred inflows of resources since the prior measurement date are recognized in employer's pension expense using the straight-line amortization method over a closed period equal to the average of the expected remaining service lives of all employees that are provided pensions through the pension plan. The resulting deferred inflow/outflow and amortization is not reflected in the Schedule of Pension Amounts by Employer.

J. Estimates

The process of preparing the schedules of employer allocations and schedules of pension amounts in conformity with accounting principles generally accepted in the United States of America requires the use of estimates and assumptions regarding certain types of assets, liabilities, revenues, and expenses. Accordingly, actual results may differ from estimated amounts.

K. Retirement System Audit Reports

TRSL issues stand-alone audit reports on its financial statements. Access to these reports can be found on the Louisiana Legislative Auditor's website, www.lla.la.gov and the TRSL website, www.trsl.org.
