

JASON E. MUMPOWER
Comptroller

Independent Auditor's Report

Members of the Board of Trustees
The Honorable David H. Lillard, Jr., Treasurer

Report on the Schedules

We have audited the accompanying Schedule of Employer Allocations of the Teacher Legacy Pension Plan of the Tennessee Consolidated Retirement System (TCRS), as of and for the year ended June 30, 2020, and the related notes. We have also audited the total for all entities of the columns titled net pension liability, total deferred outflows of resources, total deferred inflows of resources, and total pension expense (specified column totals) included in the accompanying Schedule of Pension Amounts by Employer of the Teacher Legacy Pension Plan of the TCRS as of and for the year ended June 30, 2020, and related notes.

Management's Responsibility for the Schedules

Management is responsible for the preparation and fair presentation of these schedules in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of schedules that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on the Schedule of Employer Allocations and the specified column totals included in the Schedule of Pension Amounts by Employer based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the Schedule of Employer Allocations and specified column totals included in the Schedule of Pension Amounts by Employer are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the Schedule of Employer Allocations and specified column totals included in the Schedule of Pension Amounts by Employer. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Schedule of Employer Allocations and specified column totals included in the Schedule of Pension Amounts

by Employer, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the Schedule of Employer Allocations and specified column totals included in the Schedule of Pension Amounts by Employer in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting principles used and reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the Schedule of Employer Allocations and specified column totals included in the Schedule of Pension Amounts by Employer.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions. Tennessee statutes, in addition to audit responsibilities entrust certain other responsibilities to the Comptroller of the Treasury. Those responsibilities include serving as a member of the board of trustees of the TCRS. We do not believe that the Comptroller's service in this capacity affected our ability to conduct an independent audit of the Schedule of Employer Allocations and specified column totals included in the Schedule of Pension Amounts by Employer.

Opinions

In our opinion, the schedules referred to above present fairly, in all material respects, the employer allocations and net pension liability, total deferred outflows of resources, total deferred inflows of resources, and total pension expense for the total of all participating entities for the Teacher Legacy Pension Plan of the TCRS as of and for the year ended June 30, 2020, in accordance with accounting principles generally accepted in the United States of America.

Other Matter

We have audited, in accordance with auditing standards generally accepted in the United States of America, the financial statements of the Tennessee Consolidated Retirement System as of and for the year ended June 30, 2020, and our report thereon, dated December 14, 2020, expressed an unmodified opinion on those financial statements.

Restriction of Use

This report is intended solely for the information and use of the board of trustees for the Tennessee Consolidated Retirement System, management of the Tennessee Consolidated Retirement System, and the Teacher Legacy Pension Plan employers and their auditors and is not intended to be and should not be used by anyone other than these specified parties.

Katherine J. Stickel, CPA, CGFM, Director

Tennessee Consolidated Retirement System
Teacher Legacy Pension Plan
Notes to the Schedule of Allocations and Pension Amounts by Employer
As of and for the year ended June 30, 2021 – Financial Statements
Actuarial Measurement Period of July 1, 2019, through June 30, 2020

Differences between Expected and Actual Experience

Experience differences pertain to non-investment economic and demographic factors. When actual non-investment economic and demographic factors are positively different than assumed, the experience difference is referred to as an experience gain. If the actual factors are negatively different than assumed, the experience difference is referred to as an experience loss.

A portion of the experience (gain)/loss is recognized in pension expense during the current year. The remaining portion is amortized in a rational method over a closed period equal to the average expected remaining service life of all active and inactive employees in the plan. The remaining average expected service life can vary from year to year depending on the underlying demographic factors considered by the actuary.

The remaining average expected service life is reflected in the “original period” column of the “Development of Deferred Outflows and Deferred Inflows” schedule in the actuarial report. Experience (gains)/losses in the current year will be amortized over the remaining average expected service life in effect at the establishment date (i.e. (gains)/losses will be tiered).

The portion of experience gains to be recognized in future periods will be reflected as a deferred inflow of resources. The portion of experience losses to be recognized in future periods will be reflected as a deferred outflow of resources. Cumulative experience deferred inflows of resources will be presented separately from cumulative experience deferred outflows of resources (i.e. cumulative deferred inflows of resources and deferred outflows of resources are not presented as a net amount).

For the year ended June 30, 2020, the Teacher Legacy Pension Plan had an experience gain of \$37,149,799 and a remaining average expected service life of four years. One-fourth of the current year experience gain, or \$9,287,450, was recognized in pension expense in the fiscal year ending June 30, 2021. The remaining experience gain of \$27,862,349 is reflected as a deferred inflow of resources and will be amortized over the next three fiscal years at the rate of \$9,287,450 per year.

Differences between Projected and Actual Investment Earnings

When actual investment earnings exceed projected investment earnings, the investment difference is referred to as an investment gain. If the actual earnings are less than projected, the investment difference is referred to as an investment loss. The projected investment earnings is currently 7.25%.

A portion of the investment (gain)/loss is recognized in pension expense during the current year. The remaining portion is amortized in a rational method over a closed five-year period.

The portion of investment gains to be recognized in future periods will be reflected as a deferred inflow of resources. The portion of investment losses to be recognized in future periods will be reflected as a deferred outflow of resources. **Cumulative investment deferred inflows are presented separately from cumulative investment deferred outflows on this schedule.**

Tennessee Consolidated Retirement System
Teacher Legacy Pension Plan
Notes to the Schedule of Allocations and Pension Amounts by Employer
As of and for the year ended June 30, 2021 – Financial Statements
Actuarial Measurement Period of July 1, 2019, through June 30, 2020

For the year ended June 30, 2020, the Teacher Legacy Pension Plan had an investment loss of \$564,100,904. One-fifth of the current year investment loss, or \$112,820,181, was recognized in pension expense as of June 30, 2021. The remaining investment loss of \$451,280,723 is reflected as a deferred outflow of resources and will be amortized over the next four fiscal years at the rate of \$112,820,181 per year.

Changes of Assumptions

Actuarial assumptions fall into two types: economic and demographic. Economic assumptions impact the amount of future expected benefits while demographic assumptions impact timing and probability of the benefit amount to be paid. Some examples of economic assumptions are: discount rate, salary, cost of living adjustments, etc. Demographic assumptions include: retirement pattern, turnover and mortality rates.

There were no assumption changes for The Teacher Legacy Pension Plan as of the year ended June 30, 2020. The methodology used for changes of assumptions would have been the same methodology applied for differences between expected and actual experience.

Changes of Benefit Terms

Benefit terms impact the benefit payments to be provided through the pension plan. Benefit terms include automatic postemployment benefit changes and projected ad hoc postemployment benefit changes (such as automatic cost of living adjustments (COLAs) and ad hoc COLAs, projected salary changes, and projected service credits).

There were no changes of benefit terms as of the year ended June 30, 2020, for the Teacher Legacy Pension Plan. If there had been any changes of benefit terms, the effects would all be immediately recognized in pension expense.

Changes in Proportionate Share

The Teacher Legacy Pension Plan is a cost-sharing plan. As such, each year the change in proportionate share will need to be calculated for each employer participating in the cost-sharing plan. There will be no cumulative impact on the cost-sharing plan from changes in proportionate share; however, each participating employer may have an increase or decrease in proportionate share.

The basis for determining each employer's current year proportion is employer contributions as a percentage of total cost-sharing plan contributions. For example, if employer contributions for the cost-sharing plan totaled \$100,000 and a specific employer's contributions totaled \$15,000, the corresponding proportionate share would be 15% ($\$15,000/\$100,000$). This proportion would be used to allocate the employer's share of the collective net pension liability (asset), collective pension expense, collective deferred inflows/outflows of resources from experience, collective deferred inflows/outflows of resources from investments, and collective deferred inflows/outflows of resources from changes of assumptions.

Tennessee Consolidated Retirement System
Teacher Legacy Pension Plan
Notes to the Schedule of Allocations and Pension Amounts by Employer
As of and for the year ended June 30, 2021 – Financial Statements
Actuarial Measurement Period of July 1, 2019, through June 30, 2020

An employer's proportionate share may increase or decrease from one year to the next. If there is a change in the employer's proportionate share since the prior measurement period, the net effect of that change on the collective net pension liability (asset), collective deferred outflows of resources and collective deferred inflows of resources must be calculated as of the beginning of the current measurement period.

A portion of the change in proportionate share is recognized in pension expense during the current year. The remaining portion is amortized in a rational method over a closed period equal to the average expected remaining service life of all active and inactive employees in the plan.

The remaining average expected service life is reflected in the "original period" column of the "Development of Deferred Outflows and Deferred Inflows" schedule in the actuarial report. Changes in proportionate share in the current year will be amortized over the remaining average expected service life in effect at the establishment date (i.e. changes in proportionate share will be tiered) as either a deferred inflow of resources or a deferred outflow of resources. Cumulative changes in proportionate share deferred inflows of resources will be presented separately from cumulative changes in proportionate share deferred outflows of resources (i.e. cumulative deferred inflows of resources and deferred outflows of resources are not presented as a net amount).

A change in proportionate share was calculated for each employer in the Teacher Legacy Pension Plan as of the year ended June 30, 2020. The remaining average expected service life for the measurement period ended June 30, 2020, is four years. One-fourth of the calculated change in proportionate share was recognized in pension expense as of June 30, 2021. The remaining unamortized change in proportionate share is reflected as a deferred outflow of resources or a deferred inflow of resources and will be amortized over the next three fiscal years.
